PART II
NARRATIVE SUMMARY (S)

1. Throughout the reporting period subordinate units of this command were assigned missions as follows:

Company A, Direct Support of 1st Marines.

Company B, Direct Support of 5th Marines.

Company C, Direct Support of 7th Marines. (U)

2. 1-31 July 1967. The Civic Action Program for the month of July included the treating of 581 people in Yen Bac and Cam Hoa Hamlets (AT985708 and AT975703). An outdoor movie theater was built for Yen Bac and 350 people from that hamlet viewed Psyops films during the reporting period. The hamlet water pump was repaired several times, and Yen Bac was given 200 gallons of gas to run the pump. Also 300 pounds of rice were given to Yen Bac Hamlet to help hold them over till the September harvest. A chicken farm is being set up, and plans are under way to build a new water pump, hold an Elder's Festival and distribute winter clothing at Yen Bac Hamlet. (U)

1-31 July 1967. The Battalion continued its mission of supporting the Southern Sector Rear Area Defense by running both day and night patrols and Operations in the assigned SOR. The additional commitment of providing a rifle squad to patrol the Western flank of the Southern Sector was also accomplished. (U)

1-31 July 1967. The Ontos mounted 106mm RR standdown was still in effect during the month of July. A total of 15 Ontos have had .50 caliber machine guns mounted (two per vehicle), and these have proven to be effective. (S)

1-31 July 1967. During the month of July the Battalion fired a total of 3 106mm rounds, 2,425 rounds .50 caliber, 2,490 .30 caliber rounds. The Battalion Ontos traveled a total of 3,182 miles. (U)

12. Administration. Not Applicable.

13. Special Equipment and Techniques. Not Applicable.

14. Commanders Analysis. The Ontos is an effective weapons system in blocking positions; its presence most likely discourages activity at those positions. However, because of its mobility the Ontos would be more effective if used as a maneuver element, its shock action and firepower could be utilized to its maximum advantages.

No significant mechanical failures were encountered and the Ontos proved to be completely reliable.

15. Recommendations. That the Ontos be employed with the maneuver element in the future.
