PART II - NARRATIVE SUMMARYPERSONNEL AND ADMINISTRATION

All companies are within the DaNang TAOR, with the exception of Company A (Rein), 1st Antitank Battalion, 1st Tank Battalion (Rein), which is located in the Phu Bai TAOR (Gia Le). The 1st Tank Battalion (Rein) retains administrative control of all companies.

The 1st Tank Battalion (Rein) is currently in category C-1 with a chargeable strength of 45 Marine Officers, 683 Marine Enlisted, 2 Navy Officers and 16 Navy Enlisted.

During the month of January the Battalion joined 1 Marine officer and 125 Marine enlisted. During the same period 5 Marine officers and 62 Marine enlisted were transferred. It is anticipated that the Battalion will lose a total of 44 personnel during the month of February due to normal rotation attrition.

During January, 29 personnel in OF 03 were joined to man the 1st Tank Battalion's security platoon which supports the Southern Sector Defense Command. Consequently, several tank and support personnel, who were previously in this platoon, were released to letter companies relieving some of the Battalion's critical shortages.

Five requests for extension were submitted during January. The total man-months gained through extensions are 27.

Critical personnel shortages exist in MOS's 0130, 0202, 2025, 5702, 2151, 2841, 2861, and 3091.

Increased enemy activity preceding and during the TET period at the end of January placed burdens upon many members of the command that were met with determination and true professionalism. To compensate for increased guard and 100 percent alert postures, changes were made in the plan of the day to allow maximum rest in the morning, and completion of essential work during the afternoon. The command has maintained exceptionally high moral during this trying period.

The R&R program continues to be the major morale factor in the Battalion. Motion pictures are the one facility that is enjoyed by more personnel than any other form of recreation.

Battalion Post Exchange facilities are small and limited, but adequate. The personnel of this Battalion have access to numerous large and well stocked post exchanges and scheduled runs to these facilities are made available.

During January the Battalion sustained 11 casualties, of which 5 required medical evacuation. During the same period there was 1 KIA and 1 DOW.

On-the-job-training in the OI field continues to be primary source of obtaining qualified personnel in the administrative field, however one afternoon per week has been set aside for formal OI41 schooling. A maximum number of Battalion clerks attend this course of instruction. The course is designed to further their knowledge of personnel administration. When it is noticed that a particular subject such as fitness reports, record of emergency data, or pertinent subjects seem to be causing difficulty, a class in that subject is immediately scheduled and covered in detail.

There were no courts-martials in this Battalion during the month of January. There were 7 instances of punishment under article 15 , UCMJ.

WEATHER. During January, the temperature ranged from a high of 82° to a low of 64°. Precipitation totaled 1.06" which was 3.14" below the 25 year average. Tank trafficability improved during January, however, tanks did not appreciably increase their operating territory. The prospect of increased areas of trafficability continues to improve. This is due to the very light rainfall experienced since the first few days of October.

INTELLIGENCE AND ENEMY ACTIVITIES. Enemy anti-tank activities increased during January. There were 8 mine incidents, 6 involving tanks, 1 involving an Ontos and 1 involving a gas tanker. The size of the mines varied from the 100 pound mine hit by an Ontos, resulting in 1 KIA and 1 WIA, to the 30 pound mine detonated by C-35, resulting in light damage. For the first time in many months 5 tanks of this Battalion sustained 11 RPG hits. On 3 January, 2 Company "B" tanks, located on Hill 10, reacting to an attack on CAP-B3 at Hieu Duc, were caught in a well coordinated ambush shortly after they passed the Hill 10 perimeter wire. Both vehicles sustained RPG hits resulting in 1 KIA, 6 WIA (med-evac), and 1 WIA (non-evac). Analysis of the coordinated attack on Hill 10 and Hieu Duc strongly suggest that the Hieu Duc attack was a diversion to draw the tanks off Hill 10 into the ambush. On the 30th, C-51 sustained an RPG hit resulting in 3 WIA (med-evac) and 1 WIA (non-evac).

Of major importance to the Battalion was the identification of the 31st NVA Regiment in the "Charlie Ridge" Area of the 1st Battalion, 7th Marines AOR. A Chieu Hoi from the 31st Regiment stated that his unit had infiltrated into South Vietnam on the 15th of December and arrived in Quang Nam Province around 15 January. Along with the introduction of the 31st, information was received indicating that elements of the 2nd NVA Division had moved into the Division AOR. Events during the last two days of the month confirmed the fact that increasing numbers of VC/NVA were actively operating south of the Battalion's CP. Intelligence reports indicated that guerrilla activity was increasing in the Southern Sector. These reports were substantiated with the attack on the Hill 34 Complex by a squad of local force VC which resulted in 1 bunker and several buildings destroyed, with 5 VC KIA, 2 USMC KIA and 2 USMC WIA.

OPERATIONS AND TRAINING

During the month of January the 1st Tank Battalion (Rein) participated in one major operation. On 5 January nine tanks from Company C and one tank from battalion headquarters participated in Operation Horseshoe in the vicinity of (BT1164), resulting in no enemy contact.

Company A (Rein)'s mission continues as security for the two priority bridges in the Southern Sector Defense Command AOR; the Song Cau Do Bridge and the Song Tuy Loan Bridge. Company A, also has continues to supply two tanks for the security of the Ha Dong Bridge at (AT990641). Due to the increased enemy activity in the DaNang area at the end of the month, Company A supplies two tanks for the security of the Cam Le Bridge at (BT015716). This commitment is expected to last until the threat of enemy attack on this bridge has been reduced.

Company B (Rein)'s mission continues to be direct support of the 7th Marines, primarily as security for road sweeps and reaction forces.

Company C (-) (Rein), is now in direct support of 2nd Battalion, 3rd Marines, in the Marble Mountain area. Also, they are supplying a platoon in direct support of the 2nd ROK Brigade in the Hoi An area. The 3rd Platoon, to Company B, is in direct support of 3rd Battalion, 7th Marines at An Hoa.

Company A, 1st Antitank Battalion, 1st Tank Battalion (Rein), was attached to the 1st Marines in the Quang Tri area until 22 January. From there they moved to Camp Evans. The company is now located at Gia Le, Thua Thren, in the Phu Bai TACR. The 3rd Platoon (Rein), Company A (-), is attached to the 5th Marines in the Phu Loc area. They are operating principally as security for road sweeps.

The locations of the companies and their supported units are as follows:

Company A (Rein): G/S 1st MarDiv (DaNang)
 Company B (Rein): D/S 7th Marines (DaNang, Dai Loc, An Hoa)
 Company C (-) (Rein): D/S 2nd Bn, 3rd Marines, 3rd Bn, 5th Marines
 ROKMC (DaNang, Hoi An)
 Company A (-), 1st Antitank Bn, 1st Tank Bn: 1-30Jan68, attached
 1st Marines (Quang Tri, Camp Evans)
 31Jan68, D/S Task Force X-Ray (X-Ray AOR)
 3rd Platoon (Rein), Company A (-): Attached 5th Marines (Phu Loc)
 31Jan68, D/S Task Force X-Ray (X-Ray AOR)

During the month of January, the 1st Tank Battalion's M67A2 flame tanks expended approximately 40,000 gallons of diesel fuel and napalm on assigned missions.

The 1st Tank Battalion conducted 62 patrols and ambushes in the

battalion area of responsibility and responded with several special activities from squad to company size in the SSDC and 1st Marine Division TAOR.

The results of actions in which the 1st Tank Battalion participated during January were:

VC KIA (o)	38
VC Captured	26
VCS	5
USMC KIA	2
USMC WIA	11

Antitank activities increased during January. There were seven mine incidents involving tanks and one involving an Ontos. The tanks received from no damage to heavy damage from mines averaging 50 pounds in size. The Ontos which completely destroyed by a 100 pound mine resulting in one USMC WIA (med-evac) and one USMC KIA.

There were several RPG rocket incidents during the month. Three tanks sustained from light to heavy damage and resulting casualties were 1 KIA, 6 WIA (med-evac) and 1 WIA (non-evac). There were no recoilless rifle incidents during the month.

Training for the 1st Tank Battalion was centered on technical MOS training, weapons safety and NBC training. A class was held for all companies on marijuana by a battalion team consisting of the assistant S-3 and the battalion medical officer. This team traveled to all company CP's and most outlying platoon locations to deliver the class.

The Battalion officer and staff school continues each Friday. Subjects presented during January included Code of Conduct and Logistics. A briefing by the S-2/3 summarizing the friendly and enemy activities throughout the 1st Division TAOR continues on a weekly basis. The Tuesday morning meeting for all battalion officers has been continued. This meeting allows all section heads to summarize their week's activities and inform the other sections of their plans and problems.

On 27 January the Battalion Commander held an inspection of Company C. He was accompanied by the S-3 and S-4 who inspected those portions pertaining to operations, training, and logistics. The company was found to be satisfactory with minor discrepancies. As these discrepancies are corrected they will be reported to the Battalion Commander.

The total ammunition fired during January by 1st Tank Battalion (Rein) is as follows:

All movement by Ontos of Company A (Rein) has been restricted to Route #1 and other major all weather roads. Rainfall, however, has been light in the AOR, and it is felt that trafficability will improve in the next month.

Communication with the AT company has remained a problem. Due to the geographical location of the 3rd Platoon and increased enemy interdiction along Route #1, communications with this platoon has been by landline. It is expected that this problem will be solved upon return of the platoon to the company CP.

The Combat Operations Center of the 1st Tank Battalion continued to initiate and control defensive activities within the Southern Sector. During the month 930 activities were conducted by the SSDC tenant units.

Two significant events occurred in the SSDC during January. At 111435H the CO of H&S Co, 1st Battalion, 7th Marines was returning from DaNang when he saw a Marine walking West on the road at (AT96571B). The man received 15-20 rounds of small arms fire from (AT964723). He was struck in the hand and was med-evaced to NSA. Search of the area revealed no signs of the enemy.

At 300145H a VC squad blew a hole in the wire of 7th Communications Battalion and Company B, 7th Engineer Battalion. The enemy hit a bunker with a sachel charge and tried to run through the area with more charges and grenades. The unit was also hit by approximately 15 RPG rockets at this time. The enemy was forced out and a reaction force from Company B took the retreating enemy under fire. Concentrations were fired on suspected enemy mortar positions. Total casualties were 2 USMC KIA, 2 USMC WIA (med-evac), 5 VC KIA (C) and one VC detainee. One AK-47 and several personal articles were captured.

LOGISTICS

On 31 January 1968, the following 43 major end items were T/E deficiencies of the 1st Tank Battalion: One M-37B1 truck, five M-38A1 trucks, one M-49A2C truck, one M-51 VTR, seven M-48A3 tanks, one PU-482 generator, two AN/TGG-14A teletypewriters (the teletypewriter deficiencies do not create a critical problem as two AN/PGC-1 teletypewriters are O/H and considered to be acceptable substitutes for the AN/TGC-14A's), 20 M-18A1 binoculars and five Xenon searchlights.

During January six M-48A3 Tanks were damaged by mines and three were damaged by RPG rockets. Of the six mine damaged, five were repaired by this Battalion, and the remaining one is awaiting repair parts at second echelon maintenance. Of the three damaged by RPG rockets, one was repaired by this Battalion, one was repaired at 1st FSR and the third is awaiting damage evaluation. Twelve Xenon searchlights are at 1st FSR for repair with no known completion date. Organizational maintenance was performed routinely during January with the exception of machine work. The lathe motor reported on last month's Command Chronology is still at field maintenance for repair. This continues to limit this Command's machine work capability. Authorized selective interchange of repair parts is still necessary to remove some tanks from deadline.

Supply response was generally good during the month of January. The Command received one M-543A2 wrecker, three M-54A2C 5 ton trucks, three M-12 Decon Units, one M-50A1 Ontos, and enough track assembly to refurbish three M-48A3 Tanks. Due to the cancellation program instituted by FLC and 3rd FSR approximately 2000 requisitions for the Command were cancelled. Approximately 100 of these will have to be resubmitted.

On 10 January 1968, Colonel HOGGE, United States Army and LtCol RIGGS United States Army from Combat Developments Command, Fort Belvoir, Virginia met with the Commanding Officer, the Executive Officer, the S-3 and the S-4 of the 1st Tank Battalion, to discuss improvement/employment of the M-48A3 Tank. It was learned that Army Tank Maintenance problems in RVN closely parallel those of this Command.

The protective mask M14A2, in use as of January, 1968, does not meet the requirements necessary to provide internal and external tracked vehicle communication during an enemy gas attack. A temporary special allowance of 300 M17 protective masks, which as an interim measure meet this requirement, was authorized by the Commanding General, III MAF, to be used by tracked vehicle crewmen in lieu of the M14A1 protective mask.

Improvements to the Battalion Cantonment during the month of January consisted primarily of the construction of new defensive works, tactical wire, the addition of fighting holes and fighting positions on the

perimeter, and the relocation of several defensive perimeter berms. Navy Public Works personnel completed the rewiring of the cantonment buildings, but as of this date have not taken action on the amendment to the original job order which requested the rewiring of the 11 tropical huts obtained from ASP-1 in December.

A Vietnamese Gift Shop was opened this month and will be operated under a Vietnam Regional Exchange concession contract.

Problems in supporting Company A (Rein), 1st Antitank Battalion (-), presently attached to the 1st Tank Battalion, were confined to the lack of rough rider convoys moving north during the later part of January. This problem has been partly alleviated by the use of air transportation.

January 1st commenced the Quarterly Communication Inspection of 1st Tank Battalion (Rein). Company "A" was inspected on 24 January with results of satisfactory with minor discrepancies.

A request for Communications maintainance support by the SLF Tank Platoon was completed. A contact team was dispatched to 1st FSR and tank helmets were repaired at the 1st Tank Battalion's communication repair facilities.

Completion of modification from AN/GRC-3 to VRC series radios remains at 98%. The two outstanding requisitions for modification kits to bring the Battalion program to 100% were nominated for Red Ball.

The operational level of communication equipment in the 1st Tank Battalion (Rein) is 98%. No tanks are deadlined for lack of communication equipment.

Work is continuing on the replacement of damaged T/I phones and maintainance of existing phones. Presently 45 T/I phones are operational.

During the recent alert a communication requirement for two rifle companies consisting of one Reaction Command Net and Two Rifle Company Command Nets were installed.

The 1st Tank Battalion (Rein) remains the communication and cryptographic guard for the 3rd MP Battalion, and all 1st Marine Division tenant units in the Southern Sector Defense Command.

There was a slight increase in Aid Station sick call visits during January when 597 were recorded. During January 354 immunizations were administered.

Sixteen men were hospitalized during the month, four secondary to medical illness and twelve secondary to injuries, (one non-hostile, eleven hostile). These hospitalizations accounted for 93 days lost to the Battalion. Seven men were evacuated out of country, five of these for injuries sustained in hostile action.

Venereal disease incidence remained moderate during January, with thirteen new cases receiving treatment. Five of these were contracted on out of country R&R.

Turnover in personnel within the medical section was marked by the addition of six new corpsmen. Three others rotated to CONUS during the month. Enlisted strength has now reached T/O, with fifteen men attached. Anticipated personnel changes are small in the coming months.

There were no significant medical projects during January. A marijuana indoctrination lecture was given to most units within the Battalion. MED-CAP activity was slightly reduced throughout the month because of a brief personnel shortage and the Vietnamese holiday season late in January. However, civilians were seen and treated in the BAS during the month.

Physical facilities of the Battalion Aid Station remain limited to two permanent huts and an attached storage area. Plans for a medical bunker, with a small holding ward are complete and approved, but construction awaits completion of other projects assigned engineer battalions.

During the month of January, the pig project was again expanded. Two pig farms had litters during the month. However, one litter was born dead. The eight piglets in the other litter are healthy. Construction was begun on two additional small pig farms. These farms will be completed early in February. The vaccination program for the pigs continued during January. All pigs have now been immunized against major diseases.

The experimental planting of hegari continued during the month. Several plots are coming up and growing well. Plans have been made to plant more hegari during the coming month.

Prior to and during the early part of TET, 500 gift packs and toys were distributed among the children of Phong Bac.

The psychological warfare effort was increased during January. Themes receiving emphasis included rewards, support GVN, sanitation, and the Chieu Hoi Program. The Chieu Hoi Program was given special emphasis during the period prior to Tet.

The rewards program again showed increased response with the largest turn-in of strategic items in recent months.

The MEDCAP program was discontinued for a few days during January due to a shortage of corpsmen within the Battalion, however 509 people were treated during the remainder of the month.

The results of the Viet Cong Tet offensive in Phong Bac are as yet unknown, however, it is anticipated that the pacification status will be adversely affected.

During January materials were distributed in the following quantities:

- 38,500 pounds of garbage to the pig project
- 2 truck loads of lumber to the pig project
- 45 bars of soap
- 12 toothbrushes

1. Major Operation Summary. On 5 January vehicles C-13, C-14, C-15, C-22, C-24, C-51, C-52, Y-51, F-32 and F-33 participated in Operation Horseshoe conducted by the 5th Marine Regiment. The operation area surrounded coordinates 1164. Two tanks were employed with a blocking force at coordinates 098642, four tanks with the ROKMC blocking force at coordinates 105628, and the remaining four with the sweep force inside the Horseshoe area. There was no enemy contact. The infantry suffered two casualties from a booby trap. Both were moderately injured and were med-evaced by two tanks to the BAS which was set up on the beach. One LVT hit a mine on the beach but there were no injuries. Trafficability inside the horseshoe is excellent except for the paddies. Most of them can be negotiated, however, since the mud averaged only 12 inches with a solid bottom.

2. Significant Contacts. At 091300H C-51 and C-13, while returning from a search and destroy mission received two 60MM incoming and heavy semi-automatic and automatic sniper fire from BT 113603. C-13 fired 200 rds. .50 Cal, 300 rds. .30 Cal; C-51 fired 1100 rds. .30 Cal, resulting in three Viet Cong KIA, one Viet Cong captured, and 5 Viet Cong suspects detained. Medical supplies and documents were captured and forwarded to the ROKMC.

3. Plans Summary

a. A-3, A-3A and AC-6 attended meeting with 2/3 and other commanders in the area concerning the TAOR to be taken over by 2/3. The meeting stressed the importance of coordination between all units within and adjacent to their area. There is no change anticipated in the disposition of "C" Company, 1st Tank Battalion.

4. Significant Events

a. 090415H C-52 and F-33 departed Tu Can Bridge for ACOF with medevac; arrived 090435H.

b. 090735H C-13 and C-51 departed 1 Rear's OP for SAB at BT 128623; arrived 091100H.

c. 090800H C-22 and C-24 departed CAP Self 6 for CB 128; arrived 090830H.

a. None

4. Significant Events

a. 160800H C-22 and C-24 departed Tu Cau Bridge for ACCP.

b. 161145H C-22 and C-24 departed ACCP escorting ALVT's to RORMC CP.

c. 161245H C-24 detonated a 40lb box mine at coordinates BT 082609. No damage to vehicle or injuries to personnel. The mine was emplaced in a very wet area, near a creek, and it is believed that the edge of the mine was struck by an end connector. Water must have permeated the mine because all of it did not explode. Parts of the mine were found around the 2'x1' deep crater.

d. 161315H C-22 and C-24 arrived RORMC CP; returned to ACCP 161400H.

e. 161730H C-22 and F-32 departed ACCP to provide security for CAP Golf 6.

f. 161730H F-33 and C-24 departed ACCP to provide security for Tu Cau Bridge.
