INTELLIGENCE

1. Weather

During the month of September there was a total of 17.35 inches of rainfall, compared to 3.88 during August. This total is somewhat higher than the 25-year average of 15.7 inches.

September high mean temperature was 88 degrees while the low was 77 degrees; compared to 88 degrees and 75 degrees respectively, over the past 25 years.

2. Mine and RPG Incidents

During the month of September, there was one mine incident, compared to three the previous month and four for the same period in 1967. There were no RPG incidents reported during September, compared to five during the previous month.

3. Summary and Analysis

September was the start of the monsoon season. During October, rainfall can be expected to increase at a sharp rate, and the temperature will drop slightly.

The last two weeks of September and the first part of October is harvest time for the Vietnamese. The enemy may be expected to enter populated areas in greater numbers in order to effect resupply. This is expected to increase acts of terrorism within friendly villages. It is expected that "Golden Fleece" operations will be successful in preventing the enemy from effecting this resupply at the expense of the Vietnamese farmers.

The momentum of enemy initiated activities has increased, and is expected to stay at a high level. Low level agent reports continue to point out a possible threat to Southern Sector units and outlying areas. Rocket and mortar attack incidents have increased and may be expected to continue at a high level. With the coming rains, the enemy is able to move about more freely to resupply and reconnoitre friendly positions. Because of the rainy season, vehicles are more restricted than ever, and units must stay constantly alert when choosing routes.

During the month of September, there were nine enemy sightings/contacts in the Southern Sector or adjacent to the southern boundary. There was one rocket impact and three mortar impacts within the Southern Sector boundaries.

CONFIDENTIALOPERATIONS AND TRAINING1. Operations

The 1st Tank Battalion remains dispersed throughout the Area of Responsibility of the 1st Marine Division in support of the infantry regiments of the division; however, the dispersion is not as wide as in previous months. The tanks of the battalion participated in three major operations during the month of September and supported numerous small unit activities as well as providing security for road convoys, defending bridges, and reinforcing perimeter defenses. Tanks were also used in a direct fire counter-rocket role within the Southern Sector Defense Command, and tanks and Ontos of the battalion provided firepower and mobility to reaction forces within the division.

Company A (-) (Rein) remains in direct support of the 26th Marines. The 2nd Platoon and Company headquarters displaced from the Phu Bai area to the Da Nang area between 8 and 11 September and co-located the Company Command Post with that of 1/26. The 3rd Platoon remained near the Hai Van Pass in support of 3/26.

Company B (Rein) continues to support the 5th and 7th Marines with two platoons in support of each regiment. The tanks support many small unit operations, road sweeps and convoys of both regiments. Company B also provided tanks in support of Operations Mamoluke Thrust, Sussex Bay, and Talledoga Canyon. The Company B Command Post is co-located with that of the 7th Marines on Hill 55.

Company C (Rein) was in support of the 1st Marine Division and acted as the division's tank reserve until 10 September when the company displaced to the 2/1 command post and began supporting the 1st Marine Regiment and the 2nd ROKMC Brigade. The 2nd Platoon is supporting the ROKMC Brigade and has participated in numerous small unit operations. The 1st and 3rd Platoons are supporting the 1st Marines and are used mainly on road sweeps and in perimeter defense with some small unit operations.

Company A, 1st Antitank Battalion was chopped from direct support of the 26th Marines and placed in general support of the 1st Marine Division on 8 September. On 10 September Company A assumed responsibility for the Song Cau Do and Song Tuy Loan Bridges. On 12 September the responsibility for the Song Cau Do and Song Tuy Loan Bridges was assigned to the 1st and 7th Marines, respectively. A heavy section of Ontos remained in support of elements of the 1st Marines on Song Cau Do Bridge and a light section in support of the 7th Marines on Song Tuy Loan Bridge. On 12 September, Company A assumed responsibility for OP Panther and the combat outpost located on the Three Fingers area in the Southern Sector Defense Command Area of Responsibility. One platoon of Company A remains in direct support of the Da Nang Mobile Quick Reaction Task Force.

SOUTHERN SECTOR DEFENSE COMMAND1. General Summary

Southern Sector activities continue to be coordinated, initiated and controlled by the Commanding Officer, 1st Tank Battalion. During the month 928 activities were conducted by SSDC tenant units. These activities included patrols, ambushes, LP's, OP's and COP's.

In an effort to deny the enemy the use of the east-west axis of the Southern Sector as a route of approach into Da Nang from the west, the 2nd Battalion (-), 7th Marines was displaced to the western approaches to the Southern Sector in August, and the western boundary of the sector was expanded to permit better utilization of the terrain. On 9 September 1968 the two companies of 2/7 which were still operating in the sector were chopped from Southern Sector OPCON and returned to their parent unit.

On 12 September the area of operation of the Southern Sector was again modified, and the responsibility for the defense of the Song Cau Do and Song Tuy Loan bridges was assigned to the 1st and 7th Marines respectively. On 12 September 1968, Company A, 1st AT's assumed responsibility for an area of operation in the western portion of the sector employing one Ontos platoon and a provisional infantry platoon which had been providing security for the bridges. Company A, AT's established two Combat Outposts and a series of listening posts in the Three Fingers Area. 3rd MP Battalion established two Combat Outposts to the northeast of the Three Fingers.

Due to the changes in the SSDC boundary which relieved the sector of responsibility for the bridges, the western approaches into Da Nang through the Southern Sector are better protected against enemy use. By employing the assets of Company A, AT's and the provisional infantry platoon as a delaying force, the recently revised SSDC reaction plan can be placed in effect to prevent or delay an enemy penetration of vital installations within the sector and the Da Nang area.

2. Significant Events.

- 040535H Sep 1968 While at OP Panther (AT968707), C 31 observed two rockets fired from (AT966700). Fired 1 MP, 2 Beehive, results unknown.
- 101520H Sep 1968 Company C, 1st Tank Bn. was relieved in place at (AT997723) by Company A, 1st Antitank Bn.
- 091200H Sep 1968 SSDC returned OPCON Co. E and Co. F of 2/7 to parent unit.
- 120800H Sep 1968 CG message 100845Z modifies the AO of the SSDC and passes responsibility for the defense of the Song Cau Do Bridge and Song Tuy Loan Bridge to the 1st Marines and 7th Marines respectively.

One T/E deficient M37 truck was received.

4. Cargo and Motor Transport

a. M151 and M38A1. This organization received twenty-one M151's during September in exchange for M38A1 assets. The seventeen M38A1's on hand were turned-in to Force Logistics Command and the four M38A1's on requisition were cancelled.

b. M37 Truck. The deadline rate for this vehicle did not improve during September. During current operations the M54A2C truck is employed for missions which normally utilize the M37 truck. A requirement for full mobility of the Battalion at any given time would be adversely affected by the lack of M37 truck vehicle availability.

5. Projects

The following projects were completed during the month.

- a. The generator shed was completed and three new 100 KW generators placed in operation to provide power for the cantonment.
- b. The new messhall was completed and is presently in operation.
- c. New drainage system was completed around the helopod to prevent erosion.
- d. Additional fighting holes were prepared in the cantonment to provide better defensive positions.
- e. A new entrance to the cantonment was constructed to provide better egress from the cantonment and less traffic within cantonment proper.

6. Concessions

No change

7. Summary

During September, the logistics situation continued to improve. Organizational maintenance was performed to the maximum extent practical under conditions of readiness. Availability of 2nd echelon repair parts was hampered by long lead-time and lack of response in the Direct Exchange program. Authorized selective interchange was necessary to obtain several critical repair parts. Support from field maintenance decreased during September with ten tracked vehicles presently deadlined at Force Logistics Command compared with five at the end of August. Five tracked vehicles are deadlined awaiting direct exchange items.

The following are significant problem areas:

- a. Jungle Utility Uniforms A significant number of jungle utilities were received during September, however there are requisitions pending for approximately 300 sets.

b. Inner Tubes and Hot Patches. At the present time there is a shortage of 60 inner tubes and it has been necessary to remove tubes from some trailer tires and go without spare tires in order to keep prime movers on the road. No hot patches have been received since April, although since 4 May 1968 five boxes of hot patches have been on a priority two requisition.

c. Requisitioning Problems. During September, as during August, this organization was required to submit duplicate requisitions on a significant quantity of requisitions marked "No Record". In addition duplicate requisitions were required in order to obtain items in stock at Force Logistics Command and for items marked BA, M8 and local delivery when the item had not in fact been received.

The MedCap Aid Station was open 21 days during the month of September and treated a total of 357 Vietnamese.

2. Psychological Operations

PSYOPS leaflets were distributed daily on a variety of subjects. In conjunction with the Cau Do River control program, three aerial broadcasts were made by the 9th ASC, and a loudspeaker team made two trips along the river by boat to explain regulations concerning use of the waterway to Vietnamese living in the area. Three movies were shown to local civilians during the month. The Voluntary Informant Program resulted in 20 turn-ins of M-79 and hand grenades as well as small arms ammunition.

3. Materials and Goods Distributed

During September the following materials were distributed:

- a. 16,500 pounds of swill
- b. 160 bars of soap
- c. 4 bags of cement

4. Summary

During September, daily support of the Pig Farms and Pig Breeding Farm in Phong Bac Hamlet continued to constitute the majority of Civic Action work within the 1st Tank Battalion.

Solatium payments were made as follows:

4000\$VN to the wife of a PF killed in a traffic accident involving a tank.

4000\$VN to a Hoa Cam Training Center recruit who was accidentally wounded in an operational incident near OP Panther.

1000\$VN to a woman from Hoa Thinh Village whose cow and calf were shot in an incident involving Marines from 2/7 while the battalion was OPCON to the Southern Sector Defense Command.

A public address system was installed throughout the cantonment on 24 September. The microphone and amplifier were installed in the Alternate COC bunker. The purpose of the public address system is to establish alert conditions and pass vital information in conjunction with alerts.

Permission was obtained from 3/1 and 1/7 for the SSDC to enter their fire direction nets to clear fire missions.

Units at the Cau Do and Tuy Loan bridges were requested to enter the SSDC net to forward tactical information to the COC and agreed to do so.

KY-8 transmission capabilities at Companies A, B, and C were completed on 20 September. This provides the commander with a total covered capability to the companies of the Battalion.

2. Projects Pending

New 50-pair cables, with messenger, are being installed from the division terminal box to newly constructed camp terminal boxes. The cable was placed on poles set by MCB personnel. Completion is scheduled for 15 November 1968.

3. Message Summary

During the month, 1st Tank Battalion's Communications Center processed 1449 incoming and 160 outgoing messages.

4. Equipment Status
