NARRATIVE SUMMARY**

ENCLOSURE (1)

DECLASSIFIED

~~CONFIDENTIAL~~PERSONNEL AND ADMINISTRATION

1. Personnel. During the period of this report the personnel situation remained in category two (2) due to the cadre of Company A and Company A, 1st AT Bn, and remained stable with a net loss of 19 enlisted personnel. During this period shortages continued in MOS's 3516, 2141, 2151, 2171 and 1811 causing deadlining of essential tanks and trucks for lack of maintenance personnel and crews. Replacements for the Southern Sector Defense Command continued to be on a man for man basis.

2. Promotions. One hundred and eight promotions were effected during the month of September in the grades Private First Class through Master Sergeant. There were 4 Meritorious Combat Promotions.

3. Awards. Twenty-two personnel were recommended for personal awards. Thirty-nine awards were presented to members of this Battalion, twenty-four of which were Purple Heart Medals.

4. Rest and Recreation. Seven in-country and sixty out-of-country rest and recreation quotas were received. Seven in-country and forty-three out-of-country quotas were utilized.

5. Tour Extensions. Eighteen requests were processed and approved for over-seas extensions. The 1969 cumulative man-month total for overseas extensions is 815.

6. Administrative. Periodic staff visits were made in administrative, personnel, legal and S&C/RPS matters. Two companies received their Battalion Quarterly Administrative Inspection by the Battalion Adjutant and Personnel Officer. Emphasis over this entire period was the importance of timely and proper reporting procedures, especially in the handling of personal effects, recommendations for awards and promotions. The Battalion processed three (3) emergency leaves and ten (10) special leave requests.

~~CONFIDENTIAL~~INTELLIGENCE

1. Weather. The weather during the month of September severely curtailed Tank activity throughout most of the First Marine Division TAO. The mean high temperature dropped from 96 degrees of last month to 91 degrees in September. The low fell from 77 degrees to 75 degrees. The major weather change affecting tank employment was the increase in rainfall from a trace in August to 12.80 inches in September.

2. Mines and RPG Incidents. There were no RPG incidents, but mining incidents increased from 3 last month to 5 in September. Two tanks hit mines while on road sweeps resulting in road wheels blown off but no casualties. On the afternoon of the 20th, B42 detonated an 80 lb box mine while carrying troops on the outside. The explosion caused 5 WIA EVACS and 5 WIA NON-EVAC. The damage was restricted to the road wheels on the left being sheared.

On the morning of the 25th, B Company's 1st platoon left Hill 55 for an operation in the Dodge City Area with the 1st Marines. At 0900H B12 struck a 40lb box mine which caused moderate damage to the vehicle. The afternoon of the same day, B14 struck an 80lb box mine resulting in moderate damage to tank and 1 WIA NON-EVAC.

3. Indications. With the onset of the monsoon season, Tank operations will be restricted. If able to move from their cantonments, the vehicles will be restricted to hard surface roads and high ground. Current intelligence reports show enemy build-up in base camp areas with expected rocket attacks to occur during any lull in the rain. Hoa Cam ARVN Training Center in SSDC continues to be a likely target of both mortar and ground attacks.

- b) It is estimated that the threat of enemy attacks by fire, seaborne and air probing attacks remain higher than usual until 081200H as follows:
 - a) DMZ area: URG possibility of wide spread probing attacks in general and Rocket attacks DON HOI in particular.
 - b) QUANG NGAI: USS, recent radar sightings and agent reports indicate eastward movement and possible attack preparations by elements of 90th and 31st NVA REG. As well as Z-69 BATTALION and D. BATTALION. Rockiting of Military installations and population centers in and around DANANG continues to be highly possible.
 - c) Elsewhere: While few if any possible attack indications have been noted. Capability to attack at any time continues to exist.
