1. OPERATIONS.

a. Company "A" continues in direct support of 3d Marines with two platoons in direct support of infantry battalions and one platoon attached to an infantry battalion. Highlights of the period's activities include the relocation of a battalion TAOR requiring redeployment of the ONTOS in support, a light section H&I mission, and two patrols employing ONTOS.

b. Company Headquarters. Continues to provide technical, administrative and logistic support to platoons. All motor vehicles assigned to Company "A" were quarterlied during this period. Defensive stature remains unchanged.

First Platoon. Continues in direct support of 1/1. At 031130H the ONTOS on Hill 22 (953667) was withdrawn due to a realignment of 1/1 TAOR. On 04Dec the ONTOS on Hill 41 (934665) was replaced by a tank and returned to the battalion CP area. At 051030 one Ontos was placed in support of B 1/1 on the high ground located at (921692). A continuing terrain study is being conducted with a view toward providing additional front line ONTOS support. Route 6 leading into 1/1 CP was placed under road condition "Alpha" which restricted its use considerably. Roads throughout the battalion TAOR remain fairly tractable to ONTOS.

Third Platoon. Continues attached to 3/4 at Phu Bai. Two ONTOS provided nightly for battalion security. Preparations continue for embarkation with BLT 3/4.

SECTION X  
COMMAND CHRONOLOGY  
1-31 December 1965  
Co B 3dATBn (Rein)

Problems encountered and lessons learned by attached units.

1. Administration

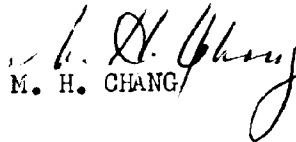

No administrative problems were encountered during the period.

2. Tactical

The only tactical problem encountered involved Ontos track sections. Track sections are critical items and have been on requisition since July, 1965. They are reportedly aboard shipping to Vietnam and should arrive here in the near future. Track sections breaking during convoy escort missions render the Ontos ineffective as primary security and additional time and resources are required to repair or replace broken track sections to enable the Ontos to carry out its mission.

3. Supply

During the period one Priority 05 requisition was submitted. At the commencement of the reporting period there were 12 Priority 02 and 117 Priority 05 requisitions outstanding. Of these, 2 Priority 02 and 27 Priority 05 requisitions were received.
