On 18 June the platoon received sniper fire, and returned 75 rounds of Cal. 30 machinegun fire at the VC. No determined results were obtained and the VC broke contact. At the conclusion of Operation DODGE the platoon returned to the Company CP (YD894143). On 24 June the Company received a Frag Order from the CO, 4th Marines to stage for Operation JAY. The 1st platoon displaced to (YD527364). Enroute it provided convoy security for "I" 3/4. The convoy arrived at the 4th Marines CP at 251210H, where the platoon provided Regimental security. On 28 June a Frag Order was received to displace to PHU BAI. As the platoon was displacing from the Regimental CP and heading toward Highway 1 it came on the site of a VC ambush of a convoy comprised of a Vietnamese Marine Unit. The U. S. Marine advisor was contacted by the 4th Marines to offer assistance. Artillery and ONTOS assistance was requested. At 0925H this platoon was committed, along with the second platoon and one ONTOS section from the 3d platoon. Company "I" 3/4 provided security for the pontoon bridge crossing at (YD519348), which had been under VC mortar fire and was suspected as a relief ambush site. This platoon along with the remainder of the company proceeded to (YD512351) where the Vietnamese Marines indicated the VC were on a ridge line parallel to Highway 1. At this point one wounded Vietnamese Marine was aided by an ONTOS crewman. From this point the AT Company Commander placed the company (-) on line, covering an area 400M wide and swept an area from (YD512351-YD495341). Numerous VC were sighted and taken under fire by the massed ONTOS with 106 ~~recoilless rifles~~ 30 cal machineguns, and the crewman even fired their Cal .45 pistols. One VC was captured at (YD497341) with all equipment. Twelve VC KIA (body count) were credited to the Company during this sweep. Numerous other VC were fired at but exact body count was impossible due to close brush, absence of infantry support and close physical pursuit. The VCC was sent back along the chain to the Company CP (YD505345). During the sweep, the combat CP came under VC sniper fire from (YD504346).

The sweep was halted due to air strikes in front of and adjacent to the massed company of ONTOS. At 1200H the company displaced to (YD511351) where it captured five CHICOM grenades, three CHICOM 75mm recoilless rifle rounds, 50 CHICOM 7.62 rifle rounds, and 20 CHICOM 12.7 heavy machinegun rounds. This platoon then joined "L" 3/4 and set up a blocking position between (YD460356) and (YD466364). The Company returned to the Regimental CP at 1130H on 30 June, and at 1200H a Frag Order was received to return to PHU DAI. The Company started the return trip acting as convoy security for Company "B", 3d MIBn. The 2nd Plt. started the month in direct support of the 4th Marine Regiment, and was located at the Company CP, maintaining defensive positions within the Regimental CP area. On the 15th of June the platoon was placed in direct support of the 3d Battalion, 4th Marines, participating in Operation ATHENS. The ONTOS fired twelve 106mm recoilless rifle HEP-T rounds into an abandoned village to clear the area of suspected VC. No determined results were reported. On 17 June the platoon returned to the Company CP and reverted to a direct support role for the 4th Marines. On 24 June the Company received a Frag Order from the CO, 4th Marines to stage for Operation JAY. This platoon participated on 24 June with the 1st platoon in providing convoy security for "I" 3/4 to (YD527364). On 26 June one ONTOS section supported "I" 3/4 on a sweep of (YD535375) - (YD542384) - (YD483403) and (YD501407). The sweep netted one VC and seven VCS. The platoon was involved in the action noted under "1st Plt" above on 28 June, after which it supported a sweep of "I" 3/4 along a line from (YD493344) to (YD477354), returning to the Regimental CP at 1830H. This platoon then joined the remainder of the Company (-) and returned to PHU DAI on 30 June. The 3d Plt. commenced the reporting period in direct support of the 1st Battalion, 4th Marines, manning three defensive positions nightly in the 1/4 TAOR. On 10 June one ONTOS was called on to provide counter fire for small arms rounds being received from an unknown number of VC, the fire coming from a walled grave. The ONTOS fired four 106mm recoilless rifle HEP-T rounds at the position, with destruction of one portion of the wall. The VC fire ceased. On 24 June when the Company received a Frag Order for Operation JAY, one ONTOS section displaced to participate in the operation, assisting in the convoy security for "I" 3/4 to (YD527364). On 26 June the platoon participated in the sweep with "I" 3/4 mentioned under "2nd Plt" above. On 28 June it participated in the Company operation mentioned under "1st Plt" above. On the afternoon of 28 June the platoon participated in the "I" 3/4 sweep mentioned under the "2nd Plt" above. This ONTOS section then joined the Company for the return to PHU DAI on 30 June. The other ONTOS section remained in the 1/4 TAOR during Operation JAY. Major Rounds The Company fired 48 106mm recoilless rifle HEP-T rounds on direct fire missions during June. In addition, 201 rounds were fired for familiarization.

f. Communications and Electronics. In addition to the normal Command Post communications functions, the following events took place during the month of June: On 1 June, the Battalion received a new frequency from 3d Marine Division for Battalion Command Net #2. On 6 June, the AN/MRC-36 radio jeep went to the Marble Mountain area to relay information to the CP on the recovery of a blown ONTOS. On 7 June, a request was submitted to 1st Radio Battalion to monitor Company "A" Command net for possible "jamming". On 8 June, communications personnel attended radio security school given by 1st Radio Battalion at the 1st Amtrac Battalion's SMOO club. On 11 June, the wire section rewired the majority of the AN/PSR-1 Seismic Intrusion Devices around the CP perimeter. On 14 June, the wire section wired the new tent provided for the Civic Action Team. From 15-30 June, monitored 1st platoon, Company "C" command net 24 hours per day. From 21-26 June, the radio section built a locker in the communications bunker for all the radio gear. With the approach of the monsoon season, this will be used as a "hot box" to keep the radio gear dry. From 28-29 June, lightning protection was placed around the ammunition bunker according to specifications promulgated in Divo 5101.3.

g. Logistics. During the month of June 36 disassembled track sections were received with sufficient bolts to assemble 16 sections. The track situation remains critical. One "Critic-Pak" was received with a partial fill of the normal listing. Five ONTOS were damaged by mines in June, two of which were evacuated to higher echelon for repairs. An FLSG contact team completed an inspection of all 106mm recoilless rifles in the Battalion on 27 June with very favorable results.

(1) Ordnance/Maintenance. A total of eight ONTOS were deadlined during the month and 13 were returned to service. Quarterly maintenance services were performed on five ONTOS. Thirteen contact teams were dispatched to provide services for units of this command. There were 11 work orders accepted and nine were completed.

(2) Motor Transport. During the month 35 work orders were received and 38 were completed. Twenty-three quarterly services and one annual service were performed. A total of 1497 vehicle dispatches were made covering 19,846 miles.

(3) Supply. In June the following major supplies were received:

h. Civic Action.

(1) Medical Assistance. The Medical Contact Team of this command dispensed a total of 477 medical treatments in the Hamlet of YEN BAC (AT985708). Medical coverage was also expanded to the CAM HOA Hamlet complex (AT970704). A total of 523 treatments and 13 dental extractions were affected in CAM HOA. Emergency medical assistance and evacuation was rendered to one Vietnamese National who has since been returned to the Hamlet. Approximately half of the treatments dispensed were in the "disease of the skin" and "upper respiratory infection" category.

(2) Agricultural Assistance. Assistance was rendered through the timely and effective distribution of some eight tons of fertilizer to the YEN BAC, CAM HOA Hamlet complex. An Animal Husbandry Team from USAID successfully vaccinated 67 pigs against smallpox and a Disease Control Team from Province Headquarters, QUANG NAM, vaccinated 10 water buffalo and 80 cows. An agricultural team also presented 150 assorted fruit trees to the two hamlet complex to diversify its agricultural spectrum. Extensive repairs were made on the irrigation system of both hamlets. A Model "A" engine was coupled to a large capacity water pump which in conjunction with two other high capacity water pumps furnished by this command delivered an estimated five million gallons of water into the rice paddies of both hamlets. Two hundred kilos of "MUNK" peanuts were also distributed through the cooperation of USAID in an effort to improve local strains of peanuts. Classes were also given the villagers in the proper use of fertilizers and the operation and maintenance of irrigation pumps.

~~CONFIDENTIAL~~3

(3) Commodity Distribution. The distribution of commodities to both YEN BAC and CAM HOA included eight woodcarving kits, 120 school kits, 90 gallons of cooking oil, two physical education kits, 2,900 pounds of grain, assorted scrap lumber and building materials and seven boxes of writing paper. Distribution was affected through the existing hamlet leadership according to the dictates of established custom. Distributed commodities were well received and led to a closer relationship between the two hamlets and this command.

(4) Area Security and Pacification was assisted through the continued employment of four Popular Forces soldiers by this command. At 0045 on 1 June 1966 a Viet Cong operative was killed in YEN BAC by security elements of this command while he was attempting to disseminate Viet Cong propaganda in the area. His presence seems indicative of the Viet Cong interest in disrupting the substantial gains made in the area through our Civic Action efforts. At 0015 on 4 June members of a security patrol accidentally wounded a YEN BAC woman and killed her infant child. Immediate command attention prevented a serious "backlash" incident. An equitable settlement was made with the woman and no further ramifications resulted from the incident.

(5) Visitors to the CAM HOA and YEN BAC Hamlets during June included BrigGen ENGLISH accompanied by two New Zealand Officers, a CID photographer, a reporter from the Honolulu ADVERTISER, and an NBC-TV camera team. While the latter was filming its report, a stray round, apparently from across the SONG CAU DO river, struck and injured two Vietnamese Nationals. The entire incident was recorded on film and should make for some interesting viewing at some future date.
