PART I
ORGANIZATIONAL DATA

1. DESIGNATIONCOMMANDER

Headquarters, 3d Tank Battalion,
3d Marine Division (Rein), FMF

Lieutenant Colonel F. D.
CHAPMAN 1-31 December 1967

SUBORDINATE UNITS

H&S Company	2ndLt J. E. GEORGAKLIS	1-31Dec67
Company "A"	Capt G. W. BAKER	1-31Dec67
Company "B"	Capt D. W. KENT	1-31Dec67
Company "C"	Capt W. J. O'BUCH	1-31Dec67
Company "A" 3dATBn	Capt J. O. LEA	15-31Dec67

2. LOCATION

H&S Company	1-31Dec67	PHU BAI
Company "A"	1-31Dec67	DONG HA
Company "B"	1-31Dec67	CAMP J. J. CARROLL
Company "C"	1-31Dec67	CAMP EVANS
Company "A" 3dATBn	15-31Dec67	KHE SANH

3. STAFF OFFICERS

Battalion Executive Officer	Major B. M. MACLAREN	1-31Dec67
Battalion S-1/Adjutant	1stLt G. F. M. CHIN	1-31Dec67
Battalion S-2	1stLt L. W. ANDERSON	1-31Dec67
Battalion S-3	Major G. A. SMOULLEN	1-31Dec67
Battalion S-4	Major R. B. FINNEY	1-31Dec67

4. AVERAGE MONTHLY STRENGTH

<u>USMC</u>		<u>USN</u>	
OFF	ENL	OFF	ENL
34	552	0	15

PERSONNEL AND ADMINISTRATION

Present officer strength is 34 compared to an authorized strength of 40. Enlisted strength is 552 compared to M/L strength of 636. Approximately 97 enlisted will be rotated during January and February.

The Battalion joined no officers and 111 enlisted during December. Losses were 3 officers and 104 enlisted.

Six requests for extension overseas were forwarded during December. The extensions bring the total man-months gain through extensions since 1 January 1967 to 600. The major factors in the favorable rate of extensions are the special 30 day leave and the R&R program.

Morale remains exceptionally high within the battalion. Personnel continue to use the improved post exchange resources and the new laundry facilities which are contributing factors.

One summary courts-martial was held during December. There were fourteen instances of punishment under Article 15, UCMJ in the battalion.

On 15 December 1967 5 officers and 111 enlisted were attached to this command from Company "A" 3d Anti-Tank Battalion. The attached Anti-Tank Company is on company administration while this Battalion is on battalion level administration.

Battalion level administration continued to present no major problem.

INTELLIGENCE

Weather. Temperatures during December fell within the mean high (75°) and low (65°). Precipitation was 18.41 inches as compared to the December monthly average of 14.6 inches.

Rainfall throughout I Corps during December was moderate to heavy. Precipitation was recorded on 20 days during the month. This coincides with the December mean. Precipitation had the net effect of continuing to curtail tank movement due to reduced trafficability. Tank operations were again limited to convoy security.

Intelligence. Artillery and mortar attacks on the outposts of Con Thien and Gio Linh were less frequent than in the past. The enemy has apparently shifted his attention for the present to the new A-3 position. This position was hit frequently during December. Dong Ha and Camps Evans and Carroll were not attacked.

During December the enemy continued infiltration of troops south. The Huo City Sapper Battalion, an NVA unit, was confirmed as operating in the vicinity of (YD 7404). Its strength is reported at 225 men. Until December this unit was carried on the OCB as "possible".

During December a number of reports were received of enemy units massing in the Quang Tri area for a push on Quang Tri City. Reports indicated the attacks would come between Christmas and Tet. By the end of December the attack had not materialized.

On 14 December a patrol from H&S Co, 3d Tank Battalion at Gia Lo Combat Base picked up 1 VN male as a VC suspect. The suspect had no ID card though he claimed residence in the area for 6 years and was of legal age. The suspect was released as an innocent civilian. On 26 December another patrol from H&S Co, 3d Tank Battalion made contact with an unknown number of VC. Results of the contact were 2 VC KIA(1), 1 VC WIA POW, an AK-47 with 2 magazines, NVA 782 gear, 2 Chinese grenades and documents. The POW died of wounds before he could be interrogated. Through the documents in his possession the VC was identified as Nguyen Duy Hiow. He was a VC squad leader from Chuay Phuong. Other documents showed his unit had been active in mining Highway #1 between Phu Bai and Hue. Also it was discovered that he had taken part in the attack on CAC/A69 in November.

OPERATIONS AND TRAINING

During the month of December tanks of this Battalion participated in five operations. Poor trafficability continued to restrict tank activity and the majority of the Battalion's effort involved firing from static positions.

Operation Kentucky. Tanks of "A" Company and one platoon of "A" Company, 3d AT Battalion supported the 1st Battalion, 1st Marine Regiment, 3d Battalion, 3d Marine Regiment, 3d Battalion, 4th Marine Regiment, 12th Provisional Artillery Battalion, and the 2nd Battalion, 1st Marine Regiment in the Cam Lo, Con Thien, Gio Linh area. Support rendered included counter battery and H&I fires, firing cannister at suspected enemy infiltration routes and direct HE and WP fires against enemy bunkers. In addition tanks at Con Thien accounted for eleven KIA(C) and twenty-one KIA(P) on 15 December while operating with elements of 1st Battalion, 1st Marine Regiment. The tanks fired beehive and cannister. On 15 December tanks at Gio Linh accounted for five KIA(C) and 5 KIA(P) by firing an observed mission.

Operation Lancaster. Tanks of "B" Company participated in the operation in the Camp Carroll - Rockpile areas. The Company supported the 3d Battalion, 9th Marine Regiment. Support included providing security for sixteen convoys to the Ca Lu position. During these convoys the tanks fired HE, cannister, machine guns and flame at suspected ambush sites. On 19 December one tank on the convoy took an RPG hit during an ambush. The hit resulted in one WIA (med-evac). On 28 December the unit sustained one WIA (med-evac) from sniper fire along the route to Ca Lu. In addition to the convoy escort the tanks fired 90mm at suspected enemy gun positions and H&I fires.

Operation Scotland. Tanks of the 3d Platoon of Company "B" and Company "A" 3d Anti-Tank Battalion supported units of the 26th Marine Regiment during this operation in the Khe Sanh area. Support was limited to participation in one patrol during which ten rounds of 90mm HE were fired at suspected enemy anti-aircraft positions.

Operation Noosho. Tanks of Company "C" participated in this operation in the Phong Dien area. The unit supported was the 1st Battalion, 9th Marine Regiment. Tanks fired 90mm HE H&I fires around Camp Evans, and one platoon went on patrol with "A" Company, 1st Battalion, 9th Marine Regiment with negative results.

ENCLOSURE (1)

Operation Napoleon. On 21 December two tanks from "C" Company were moved to the Cua Viet area and placed in direct support of the 1st Amphibian Tractor Battalion. To date these tanks have participated in two patrols with negative results.

On 3 December one platoon of Company "C" was chopped to Battalion Landing Team 2/4.

On 15 December Company "A", 3d Anti Tank Battalion was attached to this Battalion.

On 15 December tank B-22 hit a mine on the road from Camp Carroll to Dong Ha while proceeding to H&S Company forward for maintenance.

The location of the gun companies and their supported units were as follows:

Company "A" (Rein) - D/S 9th Mar Regt (Dong Ha)
 Company "B" (-) (Rein) - D/S 3d Mar Regt (Camp Carroll)
 Company "C" (-) - D/S 4th Mar Regt (Camp Evans)
 Company "A" (-), 3dATBn - OPCON 26th Mar Regt (Khe Sanh)

The Battalion Reconnaissance Squad continued its activities around the Command Post. On 26 December the squad made contact which resulted in one VC KIA(C) and two VC KIA(P). There were no friendly casualties.

Defenses around the Battalion Command Post were improved by the installation of additional perimeter wire. Further improvements are planned.

A new Command Post defense order was published.

Two in-country orientation briefings were held during the month with eighty-six newly joined personnel attending. On 12 December a class in Personal Response was conducted by personnel from the Division 3-5 section for members of H&S Company. On 11 December thirteen men of the Communications Section attended a class on communications records at the Division CP.

Two tank crewman courses were conducted during the month for newly arrived 1811's.

The nightly briefings for all staff officer and section leaders continued.

ENCLOSURE (1)
~~XXXXXXXXXX~~

[REDACTED]

The total ammunition fired during December is as follows:

<u>90MM</u>	<u>HE</u>	<u>WP</u>	<u>CANNISTER</u>	<u>BEEHIVE</u>	<u>Cal .30</u>	<u>Cal .50</u>
Direct	357	24	220	29	63,200	500
Indirect	1705	9	0	0	0	0
Total	2062	33	220	29	63,200	500

In addition 115 seconds of napalm were fired by flame tanks.

LOGISTICS

On 31 December 1967, this command had a shortage of 21 major end items; ten M48A3 tanks, one M51 recovery vehicle, four M38A1 utility trucks, one M37B1 truck, one M49C refueler truck, one TD-15 tractor, and three M5 mixing and transfer units. No major items of equipment were received during this period. The following items were evacuated: one M48A3 tanks, one lubrication and service unit, one TD-15 tractor, one M38A1 utility truck and 313 M14 rifles.

The 3d Platoon, Company "C" was redesignated as the 1st Platoon, Company "A", 5th Tank Battalion and "chopped" to 3LT Two-Four on 3 December 1967 as a part of the 9th MAB Special Landing Force. This platoon embarked on 29-30 December and contained the following personnel and major items of equipment: 1 officer and 26 enlisted, 5 M48A3 tanks, 1 M54 truck, 1 M38A1 utility truck, 1 M105A2 trailer, and 1 M100 trailer.

On 15 December 1967 Company "A" (Rein), 3d Anti-Tank Battalion was attached to the 3d Tank Battalion.

During this reporting period the primary supply activity has centered around the transfer of records and material from the 3d Anti-Tank Battalion for Company "A" (Rein) and the semi-annual inventory. Shipment of miscellaneous parts and T/E items to the Company Headquarters at Khe Sanh is now underway. The supply office had to be physically expanded in order to handle the increased work load. The supply annex for tank repair parts at Dong Ha has continued to function satisfactorily and has resulted in reduced deadline time of tanks. The requirement to cancel documents over 90 days old has created an additional backlog of work. Many items previously requisitioned will have to be re-ordered on a higher priority in view of the lost lead time. Response to priority 02 requisitions has shown a slight improvement, primarily due to filling of walk-through requisitions. However, increased message follow-up has been necessary for most other requisitions.

The functioning of this command's maintenance sections continues to be satisfactory considering the wide dispersion of subordinate units. At the end of this reporting period there were 8 tracked vehicles, 15 motor transport vehicles and 1 ordnance item deadline. Of these, 6 tanks and 11 motor transport vehicles were at third echelon maintenance facilities. The availability of tank repair parts required to remove vehicles from first and second echelon deadline has shown a slight improvement during this period. However, the major end items required to remove vehicles from third echelon deadline are still not available and the third echelon deadline ratio has continued

ENCLOSURE (1)

to expand accordingly. Items which qualify for organizational Red Ball action have been nominated as well as items at third echelon maintenance facilities. Lack of major items in the maintenance float assets continues to be a problem. There has been no appreciable improvement in the repair of infrared equipment. Receipt of 24 new pairs of M18A1 binoculars has partially resolved the critical shortages. Eighteen Xenon searchlights have been nominated for Red Ball action. The availability of first and second echelon motor transport repair parts has shown a slight improvement. However, lack of availability of direct exchange (DX) type electrical repair parts continues to be a problem area. Eight M38A1 utility trucks were evacuated to Third Force Service Regiment for repairs. No code letters will be issued until final determination can be made by 3d FSR. This evacuation policy along with T/E deficiencies has resulted in acute shortage of M38A1 utility trucks.

Services have continued to be satisfactory. Installation of plumbing in the permanent showers has not been completed by MCB-3 due to a lack of materials. Work has commenced on the grease trap for the messhall. No date for commencement of construction can be determined for the lubrication rack and water tower. The most significant service problem area continues to be inadequate electrical power for this battalion's portion of the Gia Le contonement.

Expansion of the tank battalion's portion of the Gia Le Combat Base perimeter as well as improvement of company positions has continued. Bunker construction materials are critically short. Many additional man hours are required to locally fabricate and improvise materials for construction purposes. An additional burden has been placed on the companies to procure materials for construction of bunkers at permanent Dyemarker positions. No provisions were made for bunkers for supporting arms personnel except artillery units. Bunkers have been prefabricated at Gia Le and Dong Ha and transported to forward positions.

The overall transportation situation has again been impaired due to a lack of motor vehicle operators. The wide dispersion of subordinate units, infrequency of convoys, and time required to make round trips has only compounded the situation. Roughrider convoys are the principle means used for resupply of the companies except the anti-tank company, which must be resupplied entirely by air. Transportation of individual personnel to deployed units remains unpredictable and in many instances requires several days due to the lack of air transportation during the monsoon season.

ENCLOSURE (1)

There were a total of three incidents of enemy mine and RPG damage during this period. One M48A3 tank USMC #201922 belonging to Company "B" hit an unknown type enemy mine on 12 December 1967. The suspension system was severely damaged. The damaged items were repaired or replaced and the vehicle has been restored to service. One M48A3 tank #202154 belonging to Company "B" was hit by an RPG rocket on 19 December 1967. The Commander's cupola, vision blocks and sponson box were damaged. Repairs have been completed and the vehicle is now operational. One M54 truck USMC #302421 belonging to Company "A" hit a mine on 17 December 1967. The vehicle is presently in a forward position awaiting evacuation to a third echelon maintenance facility for a limited technical inspection to determine if it can be repaired. The M48A3 tank, USMC #217819 belonging to Company "C" which was reported damaged by a mine during the last period was declared beyond repair and turned into salvage on 7 December 1967.

During the month, the Motor Transport Platoon and organic company vehicles logged 21,807 miles, hauled 1,314 short tons and transported 2,741 personnel.

There were seven personnel who required medical evacuation during December 1967.

CIVIL AFFAIRS

The battalion civil affairs officer attended the III MAF Civil Affairs Orientation Course from 29Nov67 through 10Dec67.

The battalion's CAAR, Loc Son Village at coord. (YD 934084), gained another hamlet during the month of December. On 18Dec67, the hamlet chief of Ha Ton asked permission from the Phu Loc District Chief to move his hamlet into the Loc Son Village area. Permission was granted. As of 23Dec67, five homes in the new hamlets of Ha Chau and Ton What, were erected. There are 43 families in the Ha Ton Hamlet.

Construction of wells in the refugee hamlet of Ha Nam is well under way. The villagers have completed four, three foot tiles.

The battalion obtained 850 sheets of tin from CORPS for the purpose of roofing all homes in the hamlet of Ha Nam. The tin was delivered on 19Dec67.

Due to the monsoon, construction has been hampered. The villagers of Ha Nam expect to complete the roofing of their homes by 10Jan68.

Two projects will go into the construction stage during the first week of Jan 68. The first is the village dispensary at coordinates (YD 933084). The second project is the construction of a footbridge between the hamlets of Ha Nam and Ha Chau.

The battalion MedCap began on 26Dec67. The battalion corpsman lives with the CAC unit in the village. The CAC corpsman and the battalion corpsman conduct MedCaps each morning and afternoon.

Two members of the battalion attended the Third Marine Division Personal Response Course on 4Dec67, for a two day period.

PSYCHOLOGICAL OPERATIONS

The battalion's psychological operations during December were active in conjunction with the Christmas program conducted in the battalion's CAAR, Loc Son Village, Phu Loc District.

The media employed were the culture drama team from JUSPAO, the motion picture team from 244th Psy Ops Company, health leaflets and publications.

COMMUNICATIONS-ELECTRONICS

During December the Communications Platoon continued to improve communications systems within the battalion area. The communications center continued to pick up traffic from the Third Engineer Battalion, which holds communications and cryptoguard for the Gia Le Base. During December a new system of handling outgoing radio traffic was instituted. All messages are now routed thru the message center prior to delivery to the radio section for transmission. The radio section reported no unusual incidents. Communications with both superior and subordinate units were maintained. The Tech shop reported that approximately 90% of the SL's and TM's ordered during September, were received during December.

A series of tests were conducted to determine if the M8 gas mask is compatible with the new CVC helmets. It was determined that the above mentioned pieces of equipment are not compatible. A solution, is to have the tankers wear the M17 gas mask, when using the new CVC helmet.

MEDICAL AND DENTAL

During the month of December 1967, 687 cases were seen at sick call. This continues to reflect an increase over previous months. No significant disease trends have been established although upper respiratory infections continue to be the largest percentage of cases treated. Three cases of amoebic dysentery have been diagnosed and treated during the past month. The source of the outbreak has not been established at the present time. There were fifteen non-hostile injuries during the month of December. A total of 850 immunizations were given and all immunizations are current both in the battalion CP and in the Companies.

Venereal disease has shown a sharp increase over the previous month with a total of nine cases being reported. Five were in the battalion CP and four in the companies. Three cases contracted in-country and six out-of-country.

Routine dental care and prophylaxis continues to be readily available at the 3d Engineer Battalion.

Hospital Corps personnel have been slightly increased with the addition of one additional man to cover the increase of Marine personnel as a result of a merger of units. The present strength is considered adequate.

Sanitation of the battalion CP area and companies remains satisfactory due primarily to continued improvements and excellent cooperation from responsible battalion personnel on the correction of noted discrepancies.

The night evacuation of an emergency case revealed some problem areas. An evaluation of the system was made and corrective actions taken.

Training of Marine and Hospital Corps personnel continues with emphasis on First Aid, Sanitation, and indoctrination of new personnel regarding VD, preventive medicine and narcotics. Training of Hospital Corps personnel continues to emphasize technical subjects within their specialty.

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

- 1 Dec 1967 Tanks of Bravo Co. security for roughrider fired 2 cannister and 2300 .30 cal, 300 .50 cal recon by fire at suspected enemy ambush sites w/negative contact.
- 2 Dec 1967 M54 Truck USMC #302413 turned over enroute to Dong Ha, 2 personnel injured.
- Tanks of Alpha Co. supporting 3/3 fired 20 cannister outside perimeter at suspected enemy locations w/negative results.
- 3 Dec 1967 Tanks of Alpha Co. fired 40 HE direct at suspected enemy locations and bunkers w/negative results.
- Tanks of Bravo Co. security for roughriders fired total of 1 cannister and 1200 .30 cal recon by fire at suspected enemy ambush sites w/negative results.
- M54 Truck USMC #302413 recovered and returned to CP.
- 3d Platoon, Company "C" was redesignated as 1st Platoon, Company "A", 5th Tank Bn. and transferred to BLT 2/4 as part of 9th MAB SLF. Five M48A3 tanks, one M54 truck, one M38A1 truck, one M105A2 trailer and one M100 trailer was invoiced to BLT 2/4.
- Tests conducted to determine the compatibility of the gas mask and the new CVC helmet.
- 4 Dec 1967 Tanks of 1st Platoon Alpha Co. fired 10 cannister, 10 HE, and 7 WP outside perimeter at suspected enemy infiltration routes.
- Tanks of 1st Platoon Alpha Co. fired 25 cannister, and 5 HE outside perimeter at probable enemy infiltration routes.
- Tanks of Bravo Co. security for roughrider fired 1 cannister, 800 .30 cal at possible enemy ambush sites.
- 5 Dec 1967 The battalion S-5 delivered 35 bags of cement to the village of Loc Son. 5 bags of cement were for a pagoda at coordinates (YD 927051). 30 bags were for the construction of two wells in the hamlet of Ha Nam. 1 blacksmith kit was also delivered to

the village blacksmith and 4 blackboards for the schools in the village.

6 Dec 1967 Tanks of Bravo Co. ran security for a convoy firing 1000 .30 cal recon by fire w/negative results.

M48A3 tank USMC #217819 declared a combat loss and turned into salvage.

7 Dec 1967 Inspected Co. "A" and Co. "B"

8 Dec 1967 Tanks of 2nd Platoon Charlie Co. went on patrol with A-1/9 a total of approximately 7000 meters in an area North West of 1/9 CP had negative contact. Patrol from 0730-1600, 7 Dec 1967.

Tanks of 1st Platoon Alpha Co. fired 5 HE direct and 10 cannister outside perimeter at known enemy infiltration routes w/negative results.

Tanks of 5th Platoon Alpha Co. fired a total of 20 HE at suspected enemy rocket positions to the West of their position indirect fire w/unknown results.

The Battalion S-5 met the sub-sector advisor in the battalion CAAR to discuss projects.

10 Dec 1967 Tanks of 1st Platoon Alpha Co. fired 20 HE H&I direct and 5 cannister at enemy infiltration routes outside the perimeter with unknown/negative results.

The S-5 took the plans for the school in Ha Nam Hamlet to district headquarters. The plans were approved and materials will be supplied through the ARVN supply system.

Tanks of Bravo Co. on a run to Ca Lu security for roughrider fired 4 cannister, 1 WP, Flamo 60 sec rod, 4000 .30 cal recon by fire.

12 Dec 1967 Tanks of 3d Platoon Bravo Co. went on road patrol in support of 1/26, fired 10 HE at suspected enemy anti-aircraft position w/unknown results.

Tanks of 2d Platoon Bravo Co. fired 2500 .30 cal recon by fire on roughrider in support of 3/9.

B-22 Hit a mine on way to forward maintenance from Bravo CP while taking bridge by-pass. Hole 6' diameter and 4-5' deep. (USMC #201922)

The battalion S-5 went to the CORDS Refugee Office in Hue and explained the refugee situation in the battalion CAAR. There are actually two refugee hamlets, Ha Chau at coordinate (YD 935084) and Ha Nam at coordinate (YD 938083). The S-5 requested material assistance for the hamlet of Ha Nam; 850 sheets of tin. A tentative date to pick up the material from CORDS warehouse was set as 19Dec67.

The Third Marine Division Personal Response Contact Team gave a 45 minute class to H&S Company, Third Tank Battalion.

13 Dec 1967 Tanks of 1st and 5th Platoons Alpha Cp. fired a total of 25 HE direct, 5 cannister at infiltration routes and suspected enemy concentrations w/negative results.

The JUSPAO Culture Drama Team operated in the battalion's CAAR as part of the Christmas Program. They were there for a period of two days operating in the schools during the day and in the village square in the evening.

14 Dec 1967 Tanks of 1st Platoon Alpha Co. fired 25 HE, 15 cannister at enemy infiltration routes w/negative results. (direct fire)

Tanks of Bravo Co. security on run to Ca Lu rough-rider fired 2000 .30 cal recon by fire w/negative results.

The battalion S-5 went to Phu Loc District Headquarters for a meeting with the District Chief and sub-sector advisor concerning refugees and the situation in Loc Son Village. Like CORDS they were not aware of the actual situation with two separate hamlets.

The battalion S-5, district chief, sub-sector advisor, Loc Son Village Chief and his village officials met in the afternoon. They went to the hamlets of Ha Chau and Ha Nam to actually see the situation as it was on the ground. All misunderstandings were cleared and location and names of the two refugee hamlets were recorded at district.

15 Dec 1967 A-33 fired a total of 32 HE indirect at enemy movement around perimeter. Results 5 KIA(C), 5 KIA(P).

Two tanks of 2nd Platoon Alpha Co. fired a total 25 HE, 28 beehive, 6 cannister, 3100 .30 cal while operating in support of 1/1. Results 11 KIA(C), 21 KIA(P).

16 Dec 1967 Tanks of Bravo Co. ran security for roughrider firing 1 cannister, 2500 .30 cal recon by fire w/negative results.

Tanks of Bravo Co. ran security for roughrider firing 2 cannister, 1700 .30 cal recon by fire w/negative results.

Tanks of Bravo Co. ran security for roughrider firing 800 .30 cal recon by fire w/negative results.

Preliminary 90mm Ammunition Malfunction Report submitted.

Inspected H&S Co. of this Bn.

244 PsyOps Company's motion picture team operated in the battalion's CAAR showing Health, Education Agricultural and entertainment films. Due to schedule of showings, they only gave one showing on the evening of the 16th. The battalion S-5 also delivered materials for the schools. 53 copies of TRE magazine to the village of Loc Son for the schools. The battalion S-5 also delivered 180 copies of DAY MY QUOC (What is America) to the Gia Le Combat Base IRO Office to be given to the workers.

17 Dec 1967 M54 truck USMC #302421 received damage by unknown type enemy mine.

18 Dec 1967 The hamlet of Ha Ton obtained permission to move into the Loc Son Village area. It is believed that Ha Ton presently is located at coordinates (YD 956099). They will move to (YD 936086). The hamlet has 43 families.

Inspected Co "C" of this Bn.

- 19 Dec 1967 The battalion S-5 took ten civilians from Loc Son Village to the CORD's warehouse in Hue to pick up 850 sheets of tin and 188 paper blankets. Upon their return to Loc Son they stopped at the Third Marine Division G-5 warehouse to pick up Christmas toys, candy and cookies. They returned to Loc Son Village. The Village Chief issued the tin to the families of Ha Nam as they needed. The Village Chief will issue one paper blanket to each family in the hamlets of Ha Chau and Ha Nam just prior to Christmas.
- M48A3 tank U3MC #202154 damaged by enemy RPG rocket.
- 20 Dec 1967 Two tanks of Bravo Co. ran security for roughrider fired 3 cannister, 6000 .30 cal.
- The battalion S-5 delivered 33,000 health leaflets to the corpsmen at Loc Son. They were to be passed out in the schools for the children to color, used to wrap pills and soap when given to the people at MedCaps and handed out in the village.
- 21 Dec 1967 Two tanks of 2nd Platoon Charlie Co. assigned direct support of the 1st AMTRACBN at Cua Viet.
- The battalion S-5 went to CORDS warehouse in Hue and picked up 80 bags of cement. The S-5 took 40 bags to Loc Son Village. 15 bags went to the pagoda at coordinates (XD 927051) and 25 bags to the village for the purpose of making brick for projects. The remaining 40 bags were taken to the G-5 warehouse for keeping until the battalion needed them.
- 22 Dec 1967 Detailed 90mm Ammunition Malfunction Report submitted to CG, 3d MarDiv.
- 23 Dec 1967 Five homes have been erected to date in the new hamlet of Ha Ton. Still no details on size of hamlet, etc.
- 24 Dec 1967 Tanks of Bravo Co. ran security for roughrider firing 21 cannister, 11 HE, 6000 .30 cal recon by fire, w/negative results, also 55 sec rod flame.
- Tanks of Charlie Co. went on routine patrol with elements of 1/9 from 1000-1300 on 23Dec67, w/negative results.

An inventory of all RPS distributed material on charge to the Comm Platoon was inventoried by the new RPS custodian.

- 25 Dec 1967 The battalion S-5 went to the battalion's CAAR to check on projects under sonstruction was going as scheduled.
- 26 Dec 1967 Tanks of Alpha Co. fired 10 cannister upon request from 3/4 outside position at suspected enemy movement w/negative results.
- Two tanks of Bravo Co. ran security for roughrider firing 9 cannister, 4000 .30 cal, 125 .50 cal.
- The battalion began its ModCap program in the battalion CAAR.

BATTALION ORDER 5510.4C

From: Commanding Officer
To: Distribution List

Subj: Defense of the 3d Tank Battalion Command Post, Gia Le
Combat Base.

Ref: (a) Gia Le Base Defense Coordinator Operation Order 3-67
(b) BnO 5110.2

Encl: ✓(1) Responsibilities During Readiness Conditions
✓(2) Equipment/Material Required During Readiness
Conditions
✓(3) Duties of the COC Watch Officer
✓(4) Duties of the Commander of the Guard
✓(5) Duties of the Sergeant of the Guard
✓(6) Organization and Duties of the Reaction Squad
✓(7) Composition and Duties of the Battalion
Reconnaissance Squad

1. Purpose. To provide instructions for the conduct of the defense of the 3d Tank Battalion Sector of the Gia Le Combat Base.

2. Cancellation. Battalion Order 5510.4B, Battalion Order 3121.1

3. Background

(a) Reference (a) tasks this Battalion with the responsibility for the defense of Sector III of the Gia Le Combat Base. This sector encompasses the Battalion Command Post.

(b) Proper defense of this Sector encompasses those measures necessary to defend the established perimeter and to deny the enemy access to and movement in areas adjacent to the perimeter.

4. Readiness Conditions. The tasks necessary for the defense of the Battalion Command Post can be related to the enemy threat. The threats and overall defensive measures are described in the following readiness conditions. Unit and individual responsibilities during these conditions as well as bunker, listening post and tank slot locations are described in enclosure (1).

Tab D

DECLASSIFIED

Bn0 5510.4C
19 Dec 1967

a. CONDITION IV - This is the normal condition from 0630 to 1830 when there is no known enemy threat. During Condition IV all units will conduct normal operations. Bunker 2 and Listening Post Alpha will be manned and patrolling will be conducted as scheduled. Condition IV will be automatically set at 0630 unless the Base Defense Coordinator directs otherwise.

b. CONDITION III - This is the normal condition from 1830 to 0630 when there is no known enemy threat. During Condition III all units will conduct normal operations. Bunkers 1 through 7 will be manned by three men one of whom will be awake at all times. Listening Post Alpha will be manned by four men two of whom will be awake and alert at all times, and the assigned tank will be stationed at tank slot 1 with one crewman awake and alert at all times. The entire perimeter will be under constant observation from the bunkers and patrols will be conducted as scheduled. The Base Defense Net will be entered at 1830. Condition III will be set automatically at 1830, unless the Base Defense Coordinator directs otherwise.

c. CONDITION II - This is a modification of Condition III assumed on order of the Base Defense Coordinator when it is suspected or known that the enemy will attack or attempt infiltration in from three to seventy-two hours. During this condition bunkers 1 through 7 and Listening Post Alpha will each be manned by four men two of whom will be awake at all times, and the assigned tank will be at tank slot 1 with the crew on 50% alert. Further, the Reaction Squad will be on alert. The Battalion Reconnaissance Patrol will continue its activity based on available intelligence. If the Base Defense Net has not been entered such will be accomplished immediately upon the setting of this condition. The order to set Condition II will be passed verbally.

d. CONDITION I - This is the highest state of alert and is assumed on order of the Base Defense Coordinator when it is known or suspected that the enemy will attack or attempt infiltration in from one to one hundred and eighty minutes. During this condition bunkers 1 through 7 and Listening Post Alpha will each be manned by four men and all will be awake and alert at all times, also the tank assigned will be at tank slot 1 with the crew on 100% alert. Further, all personnel will man their fighting positions, the Reaction Squad will muster in the trench adjacent to the SOC bunker, supplementary ammunition will be issued and if not already accomplished the Base Defense Net will be entered. The Battalion Reconnaissance Patrol will conduct activities based upon available intelligence. The signal to set Condition I will be a steady siren for two minutes.

BNC 5510.4C
19 Dec 1967

e. CONDITION ALPHA - Condition Alpha will be set when a mortar, artillery, rocket or air attack is occurring or is imminent. During this condition only passive defense measures are instituted, however Condition I may follow. All personnel will take the nearest available cover immediately and be prepared to set Condition I. Additionally, if not previously accomplished the Base Defense Net will be entered. The signal to set Condition Alpha will be a steady two minute blast on a horn located in the Third Engineer Battalion Area.

5. Arms and Equipment. Personnel manning bunkers and listening posts during all readiness conditions and all personnel during Condition I will have the following arms and equipment.

- a. T/O weapons with a basic load of ammunition
- b. Body Armor (flak jacket) (except personnel manning tanks)
- c. Helmets
- d. Cartridge or pistol belt with jungle kit and filled canteen
- e. Field Protective Mask
- f. Foul weather clothing as required

6. Responsibilities

(a) Battalion S-3

(1) Coordinate with the Base Defense Coordinator on matters of mutual interest to this and other sectors.

(2) Plan and control all patrol, ambush and listening post activities in the Battalion Sector.

(3) Organize and train the Battalion Reconnaissance Squad. The composition and duties of this squad are set forth in enclosure (8).

(4) Prepare and maintain current, a schematic of the sector perimeter defenses including bunkers, defensive wires, fighting holes and trenches; location of Seismic Intrusion Devices, (SID) AN/PSR-1 and Claymore Mines. One copy of this schematic will be provided to the Gia Lo Base Defense Coordinator.

(b) Headquarters Commandant

(1) Organize and supervise the Battalion perimeter defense in accordance with enclosure (2).

(2) Ensure that all hands to employ them are trained in the operation of the Seismic Intrusion Device, AN/PSR-1, the Claymore Mine, M18A1, the .30 caliber and .50 caliber and M60 machine guns, M79 Grenade Launcher, M16A1 Rifle and T/O weapons.

BnO 5510.4C
19 Dec 1967

(3) Promulgate a daily watch bill assigning personnel to man bunkers 1 through 7 at 1830 during Condition III, BP Alpha under all readiness conditions, the Reaction Squad and Line MCO.

(4) Publish Orders for the Line MCO's and Bunker, Tank Slot and Listening Post watch standers.

(c) Communications Officer

(1) Supervise the maintenance of wire communications throughout the Battalion perimeter, to other sectors within the Gia Le Combat Base and to higher and adjacent headquarters. The S-3 will be notified when wire communication to any station is out and when it is restored.

(d) Battalion S-1

(1) Advise all transient personnel of their responsibilities during Condition I, II and Alpha.

(2) Promulgate watch bills for the COC Watch Officer, Commander of the Guard and Sergeant of the Guard.

(e) Platoon Commanders. Platoon Commanders will be responsible to the Headquarters Commandant for the maintenance of the secondary line positions in their respective areas.

(f) COC Watch Officer. The duties of the COC Watch Officer are set forth in enclosure (3).

(g) Commander of the Guard. The duties of the Commander of the guard are set forth in enclosure (4).

(h) Sergeant of the Guard. The duties of the Sergeant of the Guard are set forth in enclosure (5).

7. Pyrotechnic Signals. The following pyrotechnic signals shall be used for the purpose indicated only.

- a. Green star cluster - Meaning - friendly troops
- b. Red star cluster - Meaning - enemy contact

8. Rules of Engagement. The rules of engagement set forth herein are designed to minimize casualties among friendly and non-combatant personnel. However, nothing stated in this paragraph is intended to infringe on the inherent right of the individual to defend himself and his unit from attack. In the event of attack the individual concerned may take immediate aggressive action against the attacking force by any means available. Because of the difficulties in recognition during darkness the following procedures will be followed during the hours of darkness.

DECLASSIFIED

BnO 5510.40
19 Dec 1967

- a. Challenge - This must be done first
 - b. If the person challenged does one of the three following acts when challenged the challenger may open fire.
 - (1) Makes an overt attempt to avoid apprehension.
 - (2) Opens fire.
 - (3) Commits a hostile act that endangers the life of the Challenger.
9. Weapons Safety. All personnel will strictly adhere to the provisions of reference (b) in the execution of this order.
10. Drills. Periodically drill alerts will be conducted. During such drills all the provisions of this order will be complied with.

RESPONSIBILITIES DURING ALERT CONDITIONS

1. The perimeter defense will be constructed as shown in Appendix A. It will consist of seven bunkers, one listening post and one tank position in the primary line of defense and fighting holes, bunkers and trenches in the supplementary line of defense. The Reaction Squad will be the reserve. Its organization and duties are set forth in enclosure (6).

2. For purpose of this order the Communications Section and Headquarters Section of H&S Company are designated the Communications Platoon and Headquarters Platoon. The Communications Officer is assigned as Communication Platoon Commander and the Battalion S-3 Officer is designated as the Headquarters Platoon Commander. The Communication Platoon will be composed of the personnel from the Battalion Communication Section. The personnel of the S-1, S-2, S-3 and S-4 Sections, the mail orderly, the Commanding Officer's driver and the Battalion Career Advisory NCO.

3. Responsibilities during the various conditions are listed below:

a. Headquarters Commandant

(1) Assign personnel to man bunker 1-7 during Condition III.

(2) Assign personnel to man Listening Post Alpha under all readiness conditions.

(3) Assign one tank to be positioned in Tank Slot 1 during Condition I, II and III.

(4) Assign four cooks/messmen to report to the Battalion Aid Station for duty as stretcher bearers during Condition I.

(5) As available, assign tanks to the reaction force on a daily basis.

(6) During Condition I assume a mobile post in a tank in the perimeter area. Initially this post should be in the vicinity of bunker 10.

(7) Ensure that the required materials listed in enclosure (2) are available at bunkers 1 through 7, tank slot 1, and Listening Post Alpha.

b. Communications Platoon Commander

(1) Assign personnel to man bunker 1 upon the setting of Condition I or II at any time between 0630 and 1030.

(2) Assign one man to bunker 1 upon the setting of Condition I or II from Condition III.

(3) Assign personnel to man that portion of the supplementary line from the 3d Engineer Battalion boundary to bunker 14 during Condition I.

(4) Upon the setting of Condition I dispatch one ammunition bearer to the ammunition bunkers located at the supply warehouse.

3n0 5510.4C
19 Dec 1967

c. Motor Transport Platoon Commander

- (1) Assign personnel to man bunkers 2 and 3 upon the setting of Condition I or II at any time between 0630 and 1830.
- (2) Assign one man each to bunkers 2 and 3 upon the setting of Condition I or II from Condition III.
- (3) Assign personnel to man that portion of the supplementary line from bunker 14 to bunker 12 during Condition I.
- (4) Upon the setting of Condition I dispatch one ammunition bearer to the ammunition bunker located at the supply warehouse.

d. Headquarters Platoon Commander

- (1) Assign personnel to man bunker 4 upon the setting of Condition I or II at any time between 0630 and 1830.
- (2) Assign personnel to man that portion of the supplementary line from bunker 12 to tank slot 1 during Condition I.
- (3) Upon the setting of Condition I dispatch one ammunition bearer to the ammunition bunker located at the supply warehouse.

e. Supply Platoon Commander

- (1) Assign personnel to man bunkers 5 and 6 upon the setting of Condition I or II at any time between 0630 and 1830.
- (2) Assign one man each to bunkers 5 and 6 upon the setting of Condition I or II from Condition III.
- (3) Assign personnel to man that portion of the supplementary line from tank slot 1 to bunker 10 during Condition I.
- (4) Upon the setting of Condition I dispatch one ammunition technician to the ammunition bunker located by the messhall and two ammunition technicians to the ammunition bunker located at the supply warehouse.

f. Platoon Commander, 3d Platoon, Company B, 40th Signal Battalion, U. S. Army

- (1) Assign personnel to man that portion of the supplementary line from bunker 10 to bunker 8 during Condition I.
- (2) Upon the setting of Condition I dispatch one ammunition bearer to the ammunition bunker located by the messhall.

g. Maintenance Platoon Commander

- (1) Assign personnel to man bunker 7 upon the setting of condition I or II at any time between 0630 and 1830.
- (2) Assign one man to bunker 7 upon the setting of Condition I or II from Condition III.

ENCLOSURE (1)

EnC 5510.4C
19 Dec 1967

(3) Assign personnel to man that portion of the supplementary line from bunker 8 to the 3d Engineer Battalion boundary during Condition I.

(4) Upon the setting of Condition I dispatch one ammunition bearer to the ammunition bunker located by the messhall.

h. Battalion Medical Section

(1) Upon the setting of Condition I dispatch one hospital corpsman each to bunkers 8, 10 and 12 and with the remaining hospital corpsmen man the Battalion Aid Station.

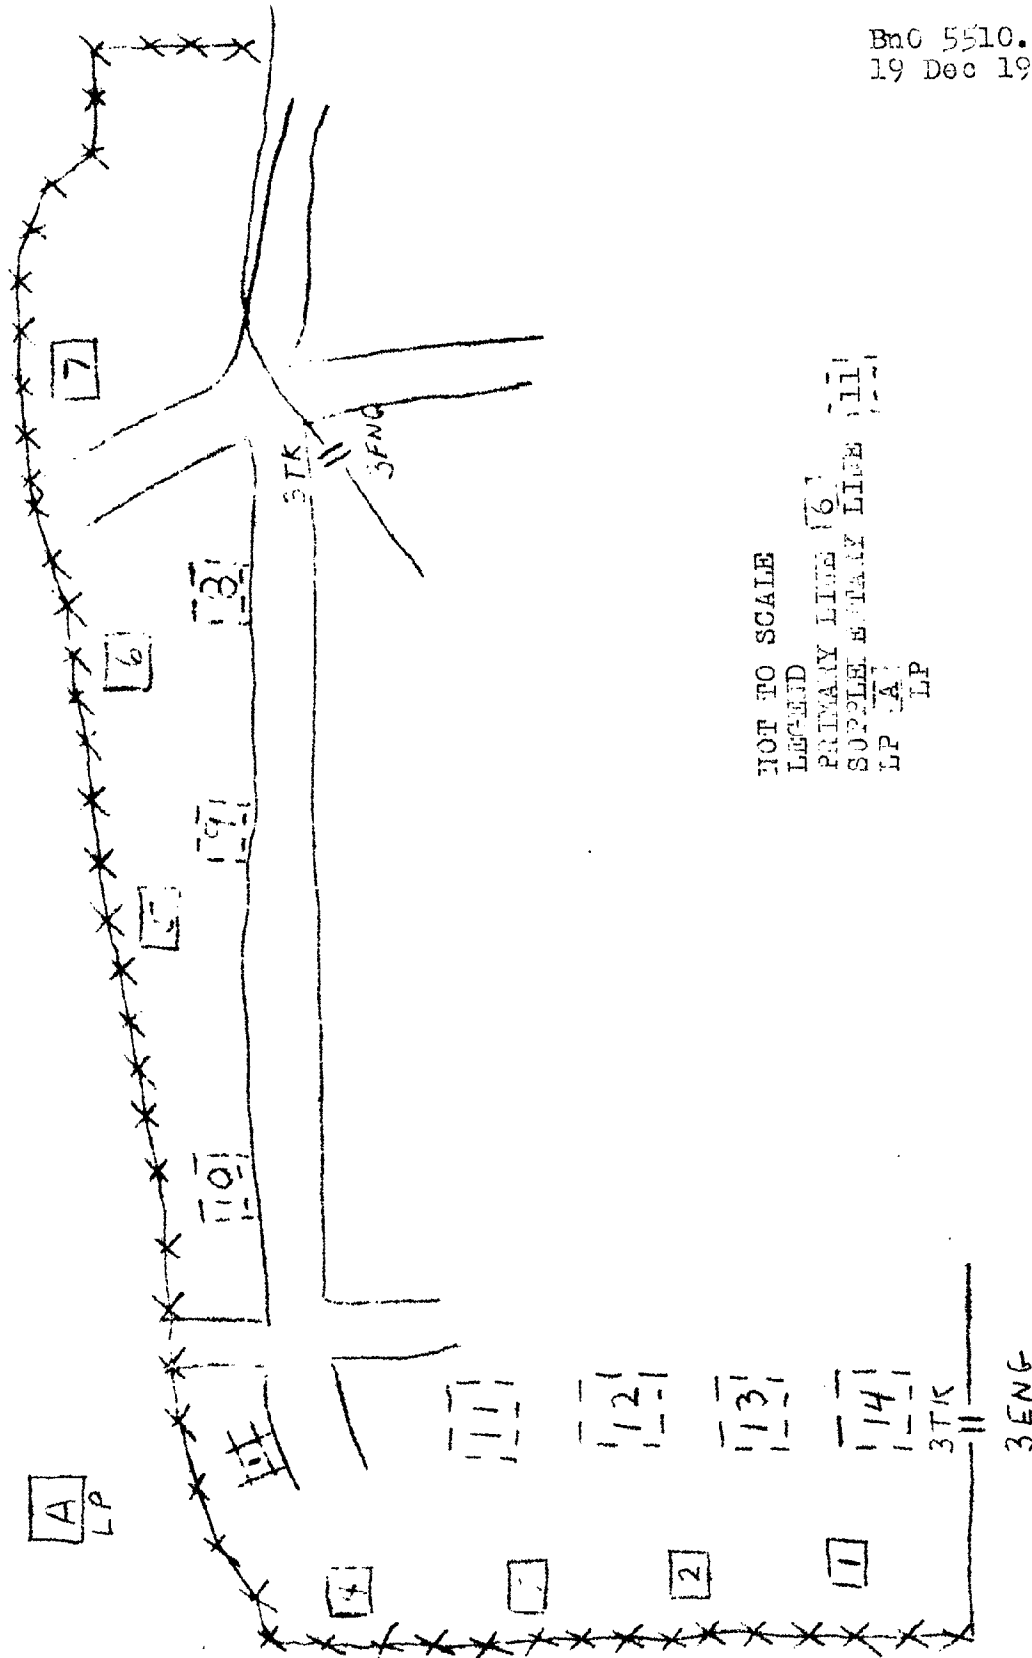

(2) Under Condition I or Alpha submit recommendations for emergency med-evacs to the 3d Engineer Battalion Medical Officer for approval. Med-evacs which are approved will be called by the 3d Engineer Battalion Aid Station.

i. Transients

(1) During Condition Alpha all transients will take immediate cover.

(2) Under Condition I transients will don body armor and helmets, carry their field protective masks and be armed with their P/C weapons. They will take the nearest available cover and initiate action only in their personal defense unless directed otherwise.

BnG 5510.4C

APPENDIX: "A"

ENCLOSURE (1)

EnO 5510.40
19 Dec 1967

SPECIAL EQUIPMENT REQUIRED DURING READINESS CONDITIONS

1. The following items will be maintained in bunkers 1 through 7 at all times.

- a. 1-Machine Gun caliber .30 or 1-Machine Gun caliber .50 or 1-M60 Machine Gun with basic load of ammunition.
- b. 1-telephone, EE-8

2. Upon the setting of Condition I, II or III the senior man assigned to each of bunkers 1 through 7 will ensure that the following items are picked up at the H&S Company Office and taken to his bunker.

- a. 9-M26, fragmentation hand grenades
- b. 4-MK1, illumination hand grenades
- c. 3-signal, illumination, hand held, white star cluster
- d. 1-signal, illumination, hand held, green star cluster

3. The following items will be maintained at Listening Post Alpha at all times.

- a. 2-signal, illumination, hand held, green star cluster
- b. 2-signal, illumination, hand held, red star cluster
- c. 4-MK1, illumination hand grenades
- d. 3-signal, illumination, hand held, white star cluster
- e. 1-compass lensatic
- f. 1-telephone EE-0

4. The following items will be provided to bunker 2 by the Sergeant of the Guard at 0630 daily and returned to the H&S Company office by the Sergeant of the Guard at 1830 daily.

- a. 2-signal, illumination, hand held, red star cluster
- b. 2-signal, illumination, hand held, green star cluster
- c. 1-compass lensatic

5. One telephone, EE-8 will be maintained at tank slot 1 at all times.

Bnc 5510.4C
19 Dec 1967

DUTIES OF THE COC WATCH OFFICER

1. The COC Watch Officer will be posted and relieved by the Battalion S-3 at 0800 daily. The tour of duty will be from 0800-0800 except that Watch Officers will perform their normal duties during regular working hours. The COC Watch Officers' Duty Roster will make provisions for relief for meals.
2. The COC Watch Officer will stand his post in the Battalion COC Bunker from 1630 to 0800 and during Readiness Condition I, II or Alpha.
3. Specific duties of the COC Watch Officer are as follows.
 - a. Post the new and relieve the old Commander of the Guard at 0815 daily. Inform the Battalion S-3 of unusual occurrences reported by the off going Commander of the Guard.
 - b. Brief the Commander of the Guard at 1800 daily regarding any special instructions for the night.
 - c. Upon the setting of Condition I during non-working hours, take the following action:
 - (1) Sound the appropriate alarm on the electric sirens
 - (2) Simultaneously notify Battalion Supply and E&S Company to sound the sirens in their areas. Advise them of the signal to sound.
 - d. Upon the setting of Condition I or Alpha during non-working hours take the following action:
 - (1) Notify Listening Post Alpha by telephone
 - (2) Notify all patrols and special listening posts by radio.
 - (3) Receive reports from all primary line positions when they are manned.
 - e. Require a report from the Commander of the Guard by 1845 to the effect that all watch standers have been posted.
 - f. Be familiar with the location of all listening posts and the routes of all patrols for the period of duty.
 - g. Be familiar with the location of illumination concentrations and reply/respond to requests for illumination from LP's, patrols and bunkers. Requests for mortar illumination will be relayed to the Gia Lo Base C C.
 - h. Inspect the reaction squad at 1600 daily outside the COC bunker.
 - i. Submit SPOT REPORTS to the Gia Le COC as required by reference (a).

BnO 5510.4C
19 Dec 1967

j. Sign and date messages for the S-3 Office during non-working hours. Enter the required information regarding such messages in the S-3 message log.

k. Maintain a log of events occurring during the watch period.

l. Receive reports of inspection of the line from the Commander of the Guard and Sergeant of the Guard.

m. Notify the Battalion S-3 of all instances of enemy action involving LP's, patrols or bunkers. In the absence of the S-3 notify the Executive Officer.

n. Debrief the Battalion Reconnaissance Patrol upon its return from activities outside the perimeter after 1630. Insure that a report in the format shown in Appendix A hereto is completed.

APPENDIX "A"

1

ENCLOSURE (3)

DECLASSIFIED

SnO 5510.4C
19 Dec 1967

DUTIES OF THE COMMANDER OF THE GUARD

1. The Commander of the Guard will be posted and relieved by COC Watch Officer, at 0815 daily. His tour of duty will be from 0015 to 0815 but he will carry out his normal duties during regular working hours. He will inform the Battalion S-3 Officer of his destination if he must leave the 3d Tank Battalion Area.
2. He is responsible for proper instructions, discipline and performance of the Guard.
3. He will report completion of the posting of the guard to the COC Watch Officer. He will inspect bunkers 1 through 7 and tank slot #1, at least once before and once after midnight. He will report the completion of such inspection to the COC Watch Officer.
4. He will keep the Sergeant of the Guard informed of his location at all times.
5. The Commander of the Guard will attend the daily Commanding Officer's briefing so that he may pass on to the guard, any information pertaining to the perimeter defense.
6. He is not required to remain awake during his entire watch, but he will remain dressed and ready to move.
7. The Commander of the Guard will inspect the Enlisted Club to ensure that Battalion Regulations regarding conduct of clubs, consumption of alcohol, hours of operation and proper uniform are being complied with.
8. The Commander of the Guard will relieve the old and post the new Sergeants of the Guard.
9. The Commander of the Guard will maintain a log. It will be a concise account of his tour of duty.
10. His office will be H&S Company Office. He will sleep in the Guard office or the transient SNCO hut only.

BnO 5510.43
19 Dec 1967

DUTIES OF THE SERGEANT OF THE GUARD

1. The hours of duty for the Sergeant of the Guard are from 0730 to 0730.
2. Both the old and new Sergeants of the Guard will be relieved and posted by the Commander of the Guard.
3. The Sergeant of the Guard will assist the Commander of the Guard in his duties and keep him aware of his location at all times.
4. He will carry out his normal duties during working hours and inform the Commander of the Guard if he must leave the 3d Tank Battalion area.
5. The Guard Office will be located in the H&S Company Office. He is not required to remain awake during his entire watch, but he will remain dressed and ready to move. He will also ensure that the cots are folded and a police call is held prior to being relieved.
6. The Sergeant of the Guard will maintain a log. It will be a concise account of his tour of duty.
7. The Sergeant of the Guard will:
 - a. Muster the Guard at an announced time in the open area next to the H&S Company Office for inspection and briefing. All personnel will be instructed on the following.
 - (1) Special order for their post
 - (2) Password
 - (3) Rules of engagement as described in paragraph (3) of the basic order.
 - (4) Patrol Routes
 - (5) Meaning of red and green star cluster signals as described in paragraph 7 of the basic order.
 - (6) Procedure for arming and detonating the M10A1 Claymore Mine (only personnel manning bunkers 1-7 need be briefed on Claymore Mines).
 - b. Receive from the line NCO's a report of ammunition, grenades, and pyrotechnics in each bunker.
 - c. Prior to relieving the 3d relief the Line NCO will inspect the line bunkers 1 through 7 and Tank Slot #1 for proper police.
 - d. Inspect bunkers 1 through 7 and Tank Slot #1 at least once during each relief and when directed by the Commander of

BnO 5510.4C
19 Dec 1967

the Guard. Reports of such inspections will be made to the Watch Officer.

e. Ensure that night rations are delivered to bunker Watch teams and Crewman in Tank Slot #1. Also, ensure that prior to being posted the listening post team draws one "C" ration meal per man for night rations.

f. Ensure that the first relief of daytime watches (bunker #2 and LP "A") are posted properly and on time.

g. At 0630 daily pick up the items described in paragraph 4 of enclosure (2) and deliver them to bunker 2. These items will be retrieved and returned to the H&S Company Office at 1830.

ENCLOSURE (5)

RnO 5510.4C
19 Dec 1967

DUTIES OF THE REACTION SQUAD

1. The reaction squad will be assigned by the Company Commander, H&S Company and will be on duty from 1800 to 0630 daily. Personnel assigned will be billeted in the Headquarters Platoon billeting area. The Squad will be organized as shown in Appendix A.

2. Personnel assigned to the squad will have the following items in their possession throughout their tour of duty.

- a. Assigned weapon with basic load of ammunition
- b. Body Armor (Flak Jacket) and helmet
- c. Cartridge or pistol belt with jungle kit and one filled canteen.
- d. Field Protective Mask
- e. Foul weather clothing as required

3. The reaction squad will have the following weapons and equipment. Each man will carry a basic load of ammunition for his weapons.

- 1-M-60 Machine Gun
- 1-M-79 Grenade Launcher
- 1-M16A1 Rifle
- 4-Pistols caliber .45
- 30-Fragmentation, Hand Grenades
- 1-Lensatic Compass
- 1-Signal, Illumination, hand held, green star cluster
- 1-Signal, Illumination, hand held, red star cluster
- 1-Radio, PRC-25

4. The Reaction Squad Leader will assign the squad members to the various billets. Personnel assigned as grenadier, machine gunner and radio operator will draw required items from the squad leader prior to the 1800 muster. The signals illumination, hand grenades and lensatic compass will be retained by the squad leader for distribution when required.

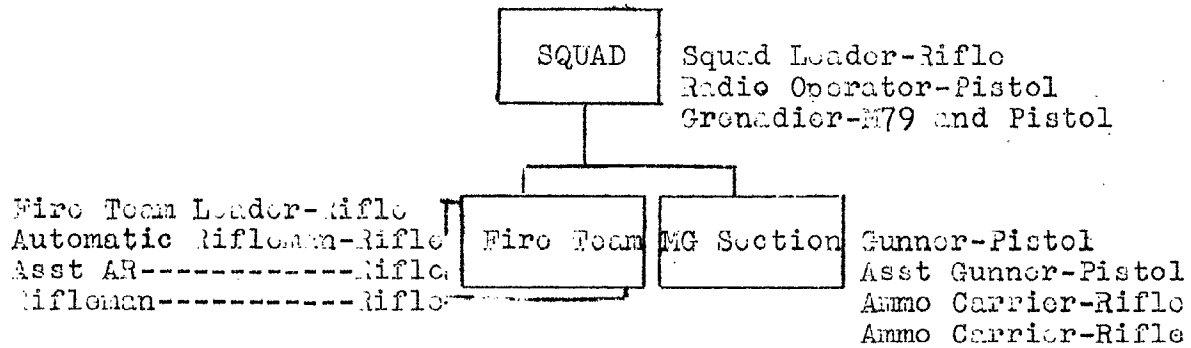

5. Upon the sounding of Condition I or II the reaction squad will immediately muster in the trench adjacent to the COC bunker. The squad leader will report the completion of the muster to the G-3 or in his absence the COC Watch Officer.

6. At such time as the Reaction Squad is committed an additional squad will be formed upon the order of the Battalion Executive Officer and will be composed of transient personnel and personnel from the various platoons.

Bno 5510.4c
19 Dec 1967

REACTION SQUAD ORGANIZATION

1. Squad Organization

BnO 5510.4C
19 Dec 1967

COMPOSITION AND DUTIES OF THE BATTALION RECONNAISSANCE SQUAD

1. The Battalion Reconnaissance Squad will be composed of fourteen Marines and will be supplemented with a Hospital Corpsman as required.

2. Personnel to form the squad will be provided as follows:

Headquarters Section -----	2
Supply Platoon -----	3
Communications Section -----	3
Motor Transport Platoon -----	2
Maintenance Platoon -----	3
Headquarters, H&S Company -----	1

These personnel will be assigned for periods of thirty days. Voluntary requests for extensions will be considered if approved by the appropriate Platoon Commander/Section Leader.

3. The Battalion Reconnaissance Squad will conduct daylight and night patrols and man special listening posts as directed by the Battalion S-3. Upon the completion of these activities and return to the Command Post the Patrol will report to the Battalion S-3 (COC Watch Officer after 1630) for debriefing.

4. Weapons and equipment carried by the patrol will be dependant on the mission assigned.

The battalion S-5 attended the IIIMAF Civil Affairs Orientation Course in DaNang on the 29th, 30th Nov. and 1 Dec.

On the 27th of Nov. nine corpsmen reported aboard for duty with the 3d Tank Battalion and three corpsmen were transferred to other units for duty. This places the number of corpsmen now on duty with the battalion at 17.

During this week the corpsmen went through their orientation and were screened for civic action work. As soon as the battalion receives its' initial issue of MEDCAP supplies the battalion Med Caps will begin again.

The battalion S-5 went to Loc Son Village where he delivered 30 bags of cement for two wells in the hamlet of Ha Nam YD938083, 75 sheets of tin for homes in Ha Nam Hamlet, 5 bags of cement for the pagoda at YD927051 and one blacksmith kit for the village blacksmith at YD935076 and 4 blackboards for the schools in the village.

The materials mentioned above were delivered to the village chief. He said he would deliver the materials to Ha Nam that afternoon and would notify the bonze at the pagoda to come in and pick up the cement.

The CAC unit leader was notified and asked to make sure that material was handled properly. The S-5 notified the CAC unit leader that he would be back in two days to check on the material.

1. In accordance with reference (a) a narrative report is submitted.

At 0700 this date the S-5 went to Loc Son to check on the materials delivered on 5Dec67. All was in order. The hamlet chief and his assistant had been called in and given the cement for the two wells. They were instructed that this material was not to be used for anyother purpose.

The S-5 returned to the battalion CP at 1100.

At 1430 that afternoon the S-5 returned to Loc Son Village. The S-5 had a meeting with the village chief and the hamlet chief of Ha Nam. They discussed the school which the hamlet had asked for. After the meeting they went to Ha Nam where they looked at the proposed site for the school house.

The hamlet chief then took the S-5 over to the site where the well is to be built. The hamlet chief explained that he had gone over to see the hamlet chief of Ha Chau to ask for assistance on the wells. The hamlet chief from Ha Chau told him how to make the well and explained the whole procedure. This shows that hamlets are not isolated from each other and are working together.

From the hamlet of Ha Nam the S5 and the village chief went to the site for the new bridge between the hamlets of Ha Nam and Ha Chau. They discussed construction problems and what the villagers would have to do.

The S-5 stayed in Loc Son Village with the CAC unit over night. He discussed civic action with the NCOIC and their relationship. They discussed the dispensary which was under construction. It was determined that the present site was not sufficient. If built where presently planned there would be problems. The present site is too close to Rt#1.

This morning the S-5 waited for the sub-sector advisor, Major Cooper, to discuss civic action in the village. They looked over the sites for new projects and the S-5 was told to have the plans for the school in Ha Nam and the bridge to district H.Q. on the morning of 10Dec 67.

1. In accordance with reference (a) a narrative report is submitted.

The battalion S-5 went to Phu Loc District H.Q. for a meeting with the district chief and the sub-sector advisor. The refugee situation in Loc Son Village was the topic.

Like Cords, They had the hamlet of Ha Chau located some 500-600 meters north of its' actual location and under another name. It seems that when the people of Ha Chau were scheduled to move the site for their relocation was near the hamlet of Ton Khat at the coordinates YD936088. As it turned out this area was under six to eight feet of water and so the people went to their present position. Cords did not change their map location or the name.

No one was aware of the situation with the hamlet of Ha Nam. District was under the impression that Ha Nam and Ha Chau were one in the same.

The battalion S-5, district chief and sub-sector advisor met at Loc Son Village at 1300 to see the situation as it actually was on the ground. They met with the village chief, Ha Nam Hamlet Chief, Ha Chau Hamlet Chief and two members of the village counsel.

It was settled that there are two refugee hamlets and that their names and locations are as reported by the battalions S-5.

The battalion S-5 went to CORDS H.Q. in Hue to see the refugee representative. The S-5 explained the refugee situation in Loc Son Village. Cords was not aware of the new hamlet of Ha Nam, YD938083. Also CORDS had the hamlet of Ha Chau under another name and located some 500 to 600 meters north of its present position at coordinates, YD935084.

The battalion S-5 explained the situation in Ha Nam Hamlet and requested material assistance for the people. The hamlet needs tin and will receive 850 sheet which will give each family 15 sheets to roof their home. Also each family will receive 2 paper blankets. A tentative date of 19Dec, was set to pick up the material at the CORDS warehouse.

The battalion S-5 went with the S-5 from 2/26 to the Village of Cam Hai where they delivered the 29 Civil Affairs Company motion picture team. The team will remain there until 1200 on the 16th when they will move to Loc Son Village.

The battalion S-5 then returned to Loc Son Village where he arranged for places to show the motion pictures on the 16th of Dec.

The S-5 2/26 met the battalions S-5 in Loc Son Village and moved the culture drama team which had been operating in the village since the 13th. The culture drama team worked in the schools in the village on the afternoon of the 13th and 14th. They put on two shows in the village headquarters on the evenings of the 13th and 14th. The people of the village liked the drama team very much and have asked that they return again in the near future.

The battalion S-5 returned to the battalion C.P. On the road he met the CORDS Refugee representative and conferred the 19th as the date that the battalion S-5 would pick up the materials for the hamlet of Ha Nam.

The battalion S-5 went to Loc Son Village this morning with a 5 ton truck and two people for security. There he picked up 10 civilians from Ha Nam Hamlet, two P.F.'s and two personnel from CAC#H2.

From Loc Son the battalion S-5 took these people to the CORDS Warehouse in Hue City. There they loaded 850 sheets of tin which are to be used to roof the homes in Ha Nam Hamlet. In addition they were given 188 paper blankets.

On their return to Loc Son Village they stopped at the 3d Marine Division G-5 Warehouse where they picked up the battalions requisition of Christmas materials.

Back at Loc Son Village 550 sheets of tin were issued to the people of Ha Nam Hamlet by family. They were told that when they had finished with the 550 sheets and could account for them in their homes they would be issued the remaining 300 sheets on an as needed bases.

The 188 paper blankets were given to the village chief to issue, one to each family, in Ha Nam and Ha Chau after Ha Nam has completed roofing their homes.

The Christmas materials will be issued the end of this week after they have been packaged.

The battalion S-5 went to CORDS Warehouse and picked up 80 bags of cement. The Battalion S-5 took 40 bags to Loc Son Village. 15 of these bags will go to the caretaker at the damaged pagoda at coordinates YD937051. The caretaker had sent word to the village chief the he had used the five bags given him two weeks ago. He has now received a total of 20 bags and still requires an additional 70 bags of cementt to repair damages.

The remaining 25 bags of the 40 taken to Loc Son will be used to make bricks for the dispensary.

The remaining 40 bags of cement were taken to the 3d Marine Division G-5 Warehouse.

While in Loc Son Village the battalion S-5 and the CAC unit leader went out to Ha Nam Hamlet where they looked at the progress which has been made on the well and the roofing of the homes.

The people have finished two tiles for the well and were getting the molds ready for two more tiles. Work was all ready underway on the reroofing of their homes.

1. In accordance with reference (a) a narrative report is submitted.

The battalion S-5 went to Loc Son Village this morning to check progress of projects under way in the hamlet of Ha Nam.

Seven civilians from the hamlet were working on the well which is under construction. They have completed two tiles and were mixing concrete for a third when the S-5 arrived.

The roofing of the homes in Ha Nam was going quite well. The hamlet chief said that they expected to finish the entire hamlet by the end of next week.

Five homes are up in the new hamlet of Ha Ton, coordinates YD936086. The hamlet chief from Ha Ton Hamlet came to the Loc Son Village Chief's Headquarters on the 18th of December asking permission to move his hamlet from the present location, which is believed to be YD956099.

T
This word was passed to the district chief and he OKed the move. There is believed to be 43 families in the hamlet.

The battalions S-5 will return to the Loc Son Village area on 26Dec67, in hopes of obtaining detailed information concerning the new hamlet and its' move.

The battalion S-5 went to Loc Son Village this morning to check on progress in the hamlet of Ha Nam.

The villagers have completed a total of four times to date for the new hamlet well. The hamlet chief said that they would not dig the well until all tiles are finished and ready to be laid.

Construction was in progress on one home. The villagers were doing an outstanding job of laying the tin roofing.

1. In accordance with reference (a) a narrative report is submitted.

The battalion S-5 received materials for a foot bridge from the Third Engineers on the 27th of DEC, and delivered this material to the village of Loc Son this date.

The bridge will be built starting 3Jan68, between the hamlets of Ha Chau and Ha Nam. The villagers are to have the area cleared prior to this date and will work with the CAC unit in the construction of the bridge.

The battalion S-5 checked the progress of projects under construction at the present time in the Village of Loc Son. The well in the hamlet of Ha Chau is on schedule. All the tiles have been completed and the well remains to be dug. Expected date of completion is set for 12Jan68.

The Well in the hamlet of Ha Nam is going smoothly. The villagers have completed four tiles to date and are planning on building two additional tiles to get the proper depth. When the tiles are completed the villagers will dig the well to its' proper depth.

The roofing of the homes in the hamlet of Ha Nam is near completion. The villagers are doing a good job and are thankful for the material assistance given by the government.

1. In accordance with reference (a) a narrative report is submitted.

The battalion S-5 went to the village of Loc Son this date to bring the battalions corpsmen back to the C.P. for pay purposes.

While there the battalion S-5 discussed the dispensary with the CAC unit leader. The battalion S-5 obtained the materials for the dispensary. They set up the date of deliverary as 3Jan68. Construction will begin that date of a temporary structure which will serve the needs of the village until the completion of the permanent structure the end of this month. It is felt that the erection of the temporary structure will show the people that something is being done now when they need it. It will also allow for the beginning of instruction of Vietnamese personnel who will take over the permanent dispensary when it is finished.
