4. AVERAGE MONTHLY STRENGTH

បូន	MC	ប្រទ	<u>in</u>
Off	Enl	Off	Enl
36	<u>636</u>	Ø	18

PERSONNEL AND ADMINISTRATION

Present officer strength is 41 compared with an authorized manning level of 41. August losses will be seven officers. This represents the brightest picture of officer strength in a year. Enlisted strength is 636 compared with an authorized manning level of 633. The battalion is reinforced by one medium tank platoon representing an additional requirement of one officer and 21 enlisted over manning level. August enlisted losses through rotation will be 75. Though the overall number of enlisted personnel is adequate, there presently exists a critical shortage of effective tank crewmen. The battalion requires 259 effective tank crewmen to man the 62 T/E tanks and five additional tanks which reinforce the battalion. The average number of effective tank crewmen available during July was 260. Furthermore, only 18 SNCO's 1811 are presently on the rolls compared with an authorized SNCO 1811 manning level of 36.

The battalion joined 11 officers and 36 enlisted during July. Losses were two officers and 36 enlisted.

Nine requests for extension of overseas tour were forwarded during July. These extensions bring the total man-months gained through extensions since 1 January 1967 to 486. The major factor in the favorable rate of extension of overseas tour is the special 30-day leave program.

Morale is very high within the battalion. The R&R program continued to be the major factor in this regard. Increased special serservice activities and expanding PX facilities are contributing factors. Also, increased contact with the enemy and an increasing sense of commitment seemed to increase the morale of the troops. The troops are generally eager to be where there is contact with the enemy and are proud to serve in the battalion.

The battalion sustained 57 casualties during July. Six were KIA and 42 sustained wounds as a result of action against the enemy. Nine non-hostile casualties were sustained.

Three special courts-martial were held during July, of which two resulted in not guilty finding. There were eight instances of punishment under article 15 UCMJ in the battalion.

Battalion level administration and personnel accounting continued to present no major problems. A shortage of five enlisted, in the occupational field 01, would be a major handicap to company level administration, but poses only minor difficulties to battalion level administration. The anticipated loss of two enlisted 0141's during August will adversely effect the accomplishment of some areas of the administrative mission. Personnel accounting errors have decreased

Enclosure (

DECLASSIFIED

sharply since the institution of battalion level personnel accounting. It is anticipated that the goal of less than 1% error in personnel accounting can be reached by the end of August.

Biclosure (1)

Weather. Temperatures during July remained within the seasonal mean high and mean low range; however, percipitation was only five percent of the July monthly average of 1.8 inches.

This lack of percipitation caused many tributary streams in Thua Thien and Quang Tri Provinces to drop as much as three feet in depth, thereby increasing 3d Tank Battalion units! mobility.

Intelligence. Third Tank Battalion units participated in seven operations during July. Seventy-five major incidents were reported, of which 46 were NVA/VC initiated. The NVA/VC initiated incidents consisted of three SAF/AWF attacks, 26 artillery/mortar/rocket attacks, 11 RPG/recoilless rifle attacks, and six anti-tank minings. Third Tank Battalion was credited with 30 enemy KIA (confirmed) and 78 enemy KIA (probable).

The employment of RPG-2's by the NVA/VC is of special note. It was found in the Con Thien area that RPG-2 rounds have been command-detonated from ground-mounted bamboo tubes. Also, the NVA/VC units are placing a great premium on anti-tank tactics, which is evidenced by individual tanks having received as many as 10 RPG-2 hits in rapid succession.

The 3d Tank Battalion Command Group and H&S Company at the Gia Le Combat Base had only two engagements with the enemy. An ambush was sprung on 10 to 15 VC, resulting in captured documents and two enemy KIA (probable). One armed VCS was taken under fire trying to enter through the perimeter wire. Results of the encounter were unknown.

OPERATIONS AND TRAINING

An increase in operations during the month of July in the 3d Marine Division TAOR resulted in an increase in NVA/VC contacts. Operation Hickory III during the last week of the month was the major commitment involving platoons from Company "A" and Company "B". There was an increase in the use of tanks to escort "rough rider" convoys in Operation Cumberland and Operation Fremont. The presence of tanks in the convoy columns appeared to reduce the number of NVA/VC attacks on the movements. A section of Company "C" tanks registered good results in direct fire from Hill 51 at targets of opportunity in the Fremont area.

The total ammunition fired during July is as follows:

90mm	HE	WP	Canister	HEAT	Cal30	Cal50
Direct	1349	96	185	ø	60,975	3250
Indirect	2035	_2	ø	Ø	ø	ø
Totals	3384	98	185	ø	60,975	3250

Flame tanks fired a total of eight loads or 2400 gallons. This increase is attributed to Operation Cumberland and efforts to defoliate the MSR in that area.

During July the locations of the gun companies and their supported units were as follows:

Company "A" (Rein) - D/S 9th Marine Regiment (Dong Ha)

Company "B" (Rein)(-) - D/S 3d Marine Regiment (Camp Carroll)

3d Platoon, Company "B" - D/S 26th Marine Regiment (Khe Sanh)

Company "C" (Rein) - D/S 4th Marine Regiment (Phong Dien)

A one-week tank proficiency and orientation course for new personnel (MOS 1811) was established prior to assignment of personnel to the letter companies. This training was deemed necessary because the line companies felt that new incoming personnel were not thoroughly familiarized with tank operations and maintenance. This program was affected somewhat by casualties sustained by Company "A" in Operation Hickory III and necessitated rapid processing of personnel to that unit as replacements.

Training during July consisted of troop orientation for new personnel and daytime and nighttime patrolling. H&S personnel were fam-fired with the M-16 and re-instructed on care and cleaning.

A bi-monthly briefing has been established for all Battalion person-

Enclosure (1)

DECLASSIFIED

nel by the Commanding Officer and staff for the purpose of keeping all hands well-informed on friendly and enemy activities. A special briefing was conducted once a week for all staff non-commissioned officers. The special staff briefings were held nightly.

LOGISTICS

As of 31 July this battalion had a shortage of seven major end items. Four M48A3 Tanks, lost in combat, are on Pri 02 documents 7140-0003 and 7105-0677, one TD-15 Tractor is on Pri 05 document 74645 of 8 November 1966, one M38A1 Truck is on Pri 05 document 7132-0017. Supply functions continued normal. Thirty-five new Xenon lights were received for distribution to those vehicles without. A rebuilt M3 Compressor and an M543A2 Wrecker were received to fill T/E deficiencies. The supply operation is being moved into its new warehouse, conducting a full inventory as it does so. Supply administration personnel are completing a reconciliation of the 708-cards with the pending requisition file to bring the two in balance.

The maintenance sections continued to function adequately. Tank maintenance, in particular, has managed to stay abreast of the situation, making good use of the selective replacement of components policy allowed, when retrograding R&E vehicles. The last FY 67 M48A3 was received, completing the program at 25 M48A3 vehicles, four M67A2's and two M51's. Nominations were submitted for the FY 68 program. At month's end there were 15 major end items on deadline. Seven were ordnance items and eight were motor transport.

There were no significant problems during July pertaining to services support.

Construction on the tropical huts and mess hall has begun with MCB-3 contracting. As of the month's end, none of the new structures was completed although approximately 29 percent of the huts were finished except for doors, steps, and wiring.

Battalion Motor Transport logged 30,435 miles, 1833 of which were in support of Division-assigned commitments.

There were 32 casualties med-evaced from the battalion. There were 17 incidents of enemy inflicted damage requiring repair to battalion tanks. Six were as a result of mines, seven of anti-tank rounds, and three of artillery. All were to M48A3's and all except four were returned to service. Three will be returned to service shortly. The remaining vehicle was a combat loss belonging to an SLF BLT OPCON to Division.

COMMUNICATIONS - ELECTRONICS

During July the Communications Platoon maintained dependable communications, improved defensive positions, and improved preventive maintenance of communication equipment.

Radio circuits remained the same, with a 24-hour net with 3d Marine Division and 3d Engineer Battalion. Radio communications with the letter companies was maintained by four scheduled shots daily. The Battalion OPSTAT was passed to Division via a daily KY-8 covered shot.

The Wire Section was busy in July weather-proofing all phones on the perimeter. This was accomplished by building a covered, wooden receptacle for each phone. A long local was laid to Bulk Fuel POL in July.

The Communications Center continued to pick up traffic from 3d Engineer Battalion, which holds Communication and Crypto Guard for the Gia Le Combat Base. During July the Communications Center processed 486 messages.

The Tech Shop completed drawing diagrams for the AN/VRC-12, lesson plans for the operation of the new series of radios for tankers' instruction, and making new maintenance and modification cards for the AN/VRC-12 series of equipment.

MEDICAL AND DENTAL

Military sick call for July increased over that of June. A total of 304 patients were seen. Immunizations totalled 1523.

Veneral disease cases for July totalled six, an increase of three over last month's total. All six cases were diagnosed as gonorrhea. Two cases were contacted in Hue, RVN. Remaining cases were contacted out-of-country.

MEDCAP activities continued. A Hospital Corpsman is permanently assigned to the CAC unit at Loc Son Village. This corpsman holds daily sick call for the local populace.

Training was conducted on company level, covering self-aid and buddy-aid, with much of the instruction centering on the use of the morphine syrette and recognition and treatment of heat casualties. VD and personal hygiene lectures were also given.

CIVIL AFFAIRS

The 3d Tank Battalion Civil Affairs program slowed down due to a scarcity of labor during July.

The school in Xuan Hoi Hamlet needs only to be painted. It has a capacity for 50 students.

The rice warehouse project is still in progress with the procurement of beams and a temporary labor shortage causing the temporary delay.

The medical dispensary needs only lumber, which is currently being procured, and sheet tin for the roof. The concrete deck has already been laid.

MEDCAPs are conducted twice daily by a 3d Tank Battalion resident corpsman who stays with the CAC H-2 personnel. A total of 2266 patients were treated in July.

Inclosure (1)

1 July 1967: A message was sent to Company "C" stating that R&E M48A3 tank, USMC #202011 has arrived for exchange with M48A3 tank, USMC #201863.

Ref: S-4 Journal, 1JUL67

2 July 1967: From 021130H to 021900H four tanks from Company "B" fired 65 rounds of 90mm canister, 56 rounds of 90mm HE, and 4000 rounds of .30 calibre in support of a company sweep by 1/9. Results were four USMC WIA (med-evac) and 40 NVA KIA (probable).

Ref: S-3 Journal, 3JUL67, Entry 1

4 July 1967: At 041300H four tanks from Company "A" at (YD 123733) fired 38 rounds of 90mm HE and 14 rounds of 90mm canister at suspected company fortified position. Results were 10 enemy KIA (probable).

Ref: S-3 JOurnal, 4JUI67, Entry 3

At 040930H a tank from Company " Λ " hit an anti-tank mine at (YD 518-867). Results were heavy damage to the tank and two USMC WIA (non-evac).

Ref: S-3 Journal, 4JUL67, Entry 5

5 July 1967: At 051315H a Company "A" tank hit an anti-tank mine at (YD 133725). Result was moderate damage to tank.

Ref: S-3 Journal, 5JUL67, Entry 7

6 July 1967: Company "C" M48A3 tank, USMC #211863 arrived at Battalion GP. This tank is a retrograde vehicle.

Ref: S-4 Journal, 6JUL67

At 060815H Company "B" tanks at (YD 115673) fired 4000 .30 calibre rounds, 40 90mm HE rounds, and 18 90mm canister rounds at suspected enemy positions. Results of the engagement were four USMC WIA, 10 NVA KIA (confirmed), and 12 NVA KIA (probable).

Ref: S-3 Journal, 6JUI67, Entry 4

At 061245H a Company "A" tank at (YD 140718) received an RPG-2 hit to the cupola and small arms fire. Results of action were two USMC WIA (med-evac).

Ref: S-3 Journal, 6JUI67, Entry 5

At 061800H a Company "A" tank at (YD 133723) received an RPG-2 hit which caused a fire inside the turret. Another tank received RPG-2 fire. Results were five USMC WIA.

Ref: S-3 Journal, 6JUI67, Entry 11

Enclosure (1)

10 July 1967: At 101355H a Company "A" tank fired 25 90mm HE rounds, resulting in one house destroyed and one secondary explosion.

Ref: S-3 Journal, 10JUI67, Entry 3

11 July 1967: The Maintenance Officer (FOG) picked up R&E FY 67 MSI VTR, USMC #234157 from FLSU #1. LTI and acceptance check are being conducted.

Ref: S-4 Journal, 11JUL67

At 111635H a Company "C" tank at (YD 549282) fired one round of 90mm HE at six VC moving in a southeasterly direction. Results were six VC KIA (confirmed).

Ref: S-3 Journal, 11JUL67, Entry 9

12 July 1967: At 121110H a Company "C" tank at (YD 549282) fired three 90mm HE rounds at six VC apparently setting a booby trap. Results of fire were two VC KIA (confirmed) and two VC KIA (probable).

Ref: S-3 Journal, 12JUL67, Entry 6

14 July 1967: At 142120H tanks from Company "A" at (YD 213732) received enemy mortar rounds resulting in two USMC WIA (non-evac).

Ref: S-3 Journal, 14JUL67, Entry 9

19 July 1967: At 19210CH an H&S Company patrol at (YD 832168) ambushed 10 to 15 VC. The patrol fired, causing one VC KIA (probable). The VC broke contact and the patrol pulled back to the Battalion CP. At first light on 20 July a patrol went out to investigate the ambush site. One diary and one knife were found in the vicinity of the action.

Ref: S-3 Journal, 19JUL67, Entry 6

At 191530H two Company "C" tanks were escorting a convoy at (YD 653-095) when the lead tank received an RPG-2 penetration. The tank sustained light damage. One USMC WIA (med-evac) also resulted.

Ref: S-3 Journal, 20JUL67, Entry 3

21 July 1967: Message was sent to the Maintenance Officer (FOG) requesting 25 M48A3 tank nominations by USMC number and priority for R&E program FY 68. Nominations were also requested for four M67A2 flame tanks and two M-51 VTR's.

Ref: CG, 3dMarDiv msg 151353ZJUL67

22 July 1967: At 221100H an infantry unit of the 4th Marine Regiment observed a VC at (YD 564290). A tank from Company "C" fired one 90mm HE round, resulting in one VC KIA (probable).

Ref: S-3 Journal, 22JUI67, Entry 7

23 July 1967: At 231420H two Company "C" tanks escorted a rough rider on Operation Cumberland in the vicinity of (YD 684098). The lead tank was ambushed, receiving two RPG penetrations. Result was two USMC WIA (med-evac). Tanks returned fire with eight 90mm canister rounds, 15 90mm HE rounds, 5800 .30 calibre rounds, and 200 .50 calibre rounds with inconclusive results.

Ref: S-3 Journal, 23JUL67, Entry 9

27 July 1967: At 271900H a Company "A" tank was hit by an enemy artillery round. The results were moderate damage to the tank, four USMC KIA, and six USMC WIA (med-evac).

Ref: S-3 Journal, 27JUI67, Entry 16

28 July 1967: Company "A" tanks in a relief column at (YD 233745) received three recoilless rifle rounds, resulting in light damage to the tanks and two WIA (non-evac). Tanks destroyed three enemy observation ladders by crushing and observed tracked vehicle tracks of unknown origin.

Ref: S-3 Journal, 28JUL67, Entry 4

At 281725H Company "A" tanks in support of 2/9, Operation Hickory III damaged seven enemy bunkers at (YD 084753) with 41 90mm HE rounds.

Ref: S-3 Journal, 28JUI67, Entry 9

29 July 1967: At 291055H a Company "A" tank at (YD 086744) detonated an anti-tank device while operating in the DMZ in support of 2/9. The tank sustained light damage.

Ref: S-3 Journal, 29JUL67, Entry 6

At 291400H a Company "A" tank at (YD 090730) in support of 2/9, sustained an RPG penetration. Result was three USMC WIA (med-evac).

Ref: S-3 Journal, 29JUL67, Entry 9

At 291700H a Company "A" heavy tank section at (YD 088734) in support of 2/9 was ambushed. One tank was penetrated by an RPG round. Tanks returned fire with 15 90mm canister rounds and 225 .30 calibre machine gun rounds with inconclusive results. USMC casualties were one KIA and six WIA (med-evac); four WIA's later returned to duty.

Ref: S-3 Journal, 30JUL67, Entry 15

PERSONNEL AND ADMINISTRATION

Present officer strength is 41 compared with an authorized manning level of 41. August losses will be seven officers. This represents the brightest picture of officer arrest strength in a year. Enlisted strength is 636 compared with an authorized manning level of 633. The battalion is reinforced by one medium tank platoon representing an additional requirement of one officer and 21 enlisted over manning level. August enlisted losses through rotation will be 75. Though the overall number of enlisted personnel is and adequate there presently exists a critical shortage of effective tank crewmen. The battalion requires 259 effective tank crewmen to man the 62 T/E tanks and five additional tanks which reinforce the battalion. The average number of effective tank crewmen available during July was 260. Furthermore, only 18 SNCO's (MOS 1811) are presently on the rolls compared with an authorized SNCO 1811 manning level of 36.

The battalion joined 11 officers and 36 enlisted during July. Losses were two officers and 36 enlisted.

None requests for extension of overseas tour were forwarded during July. These extensions bring the total man-months gained through extensions since 1 January 1967 to 486. The major factor in the favorable rate of extension of overseas tour is the special 30-day leave program.

Morale kex is very high within the battalion. The R&R program continued to be the major factor in this regard. Increased special service activities and expanding PX facilities are contributing factors. Also, increased contact with the enemy and an increasing sense of commitment seemed to increase the morale of the troops. The troops are generally eager to be where there is contact with the enemy and are proud to serve in the battalion.

The battalion sustained 57 casualties during July. Six were killed in action and 42 sustained wounds as a result of action against the enemy.

Nine non-hostile casualties were sustained.

Three special courts-martial were held during July, of which two resulted in not guilty finding. There were eight instances of punishment under article 15 UCMJ in the katkaxika battalion.

Pattalion level administration and personnel accounting continued to present ax no major problems. A shortage of five enlisted, in the occupational field 01, would be a major handicap to company level administration, but poses only minor difficulties to battalion level xaministration. The anticipated loss of two enlisted 0141's during August will adversely effect the accomplishment of some areas of the administrative mission. Personnel accounting errors have decreased sharply since the institution of battalion level personnel accounting. It is anticipated that the goal of less than 1% error in personnel accounting can be reached by the end of August.

INTELLIGENCE

<u>Weather</u>. Temperatures during the month of July remained within the seasonal mean high and mean low range; however, percipitation was only five percent of the July monthly average of 1.8 inches.

This lack of percipitation caused many tributary streams in Thua Thien and Quang Tri Provinces to drop as much as three feet in depth, given thereby increasing 3d Tank Battalion units' mobility.

Intelligence. Third Tank Battalion units participated in seven operations during July. Seventy-five major incidents were reported, of which 46 were NVA/VC initiated. The NVA/VC initiated incidents consisted of three SAF/AWF attacks, 26 artillery/mortar/rocket ax attacks, 11 RPC/recoilless rifle attacks, and six anti-tank minings. Third Tank Battalion was credited with 30 enemy KIA (confirmed) and 78 enemy KIA (probable).

The employment of RPG-2's by the NVA/VC is of special note. It was found in the Con Thien area that RPG-2 rounds have been command detonated from ground-mounted bamboo tubes. Also, the NVA/VC units are placing a great premium on anti-tank tactics, which is evidenced by individual tanks having received as many as 10 RPG-2 hits in rapid succession.

The 3d Tank Battalion Command Group and H&S Company at the Gia Le Combat Base had only two engagements with the enemy. An ambush was sprung on 10 to 15 VC, resulting in captured documents and two enemy KIA (probable).

Results One armed VCS was taken under fire trying to enter through the perimeter wire. Results of the encounter were unknown.

CIVIL AFFAIRS

The 3d Tank Battalion Civil Affairs program slowed down due to a scarcity of labor during July.

The school in Xuan Hoi Hamlet needs only to be painted. It has a capacity for 50 students.

The rice warehouse project is still in progress with the procurement of beams and a temporary labor shortage causing the temporary hadden delay.

The medical dispensary needs only lumber, which is currently being PROCURED servinged, and sheet tin for the roof. The concrete deck has already been laid.

MEDCAPs are conducted twice daily by a 3d Tank Battalion resident corps=man who stays with the CAC H-2 personnel. A total of 2266 patients were treated in July.

COMMAND CHRONOLOGY S-L: INPUT

As of 31 July, this battalion had a shortage of seven major end items. Four M48A3 Tanks, lost in combat, are on Pri 02 documents 7140-0003 and 7105-0677, one TD-15 Tractor is on Pri 05 document 74645 of 8Nov66, one M38A1 Truck is on Pri 05 document 7105-0686 and one M49 Truck, Tanker is on Pri 05 document 7132-0017. Supply functions continued normal. Thirty-five new Xenon Lights were received for distribution to those vehicles without. A rebuilt M3 Compressor and M543A2 Wrecker were received to fill T/E deficiencies. The supply operation is being moved into its new warehouse, conducting a full inventory as it does so. Supply administration personnel are completing a reconciliation of the 708 cards with the pending requisition file to bring the two in balance.

The maintenance sections continue to function adequately, Tank maintenance, in particular, has managed to stay abreast of the situation, making good use of the selective replacement of components policy allowed, when retrograding R&E vehicles. The last FY 67 M48A3 was received, completing the program at 25 M48A3 vehicles, 4 M67A2's and 2 M51's. Nominations were submitted for the FY 68 program. At month's end, there were fifteen major end items on deadline. Seven were ordnance items and eight were motor transport.

There were no significant problems during July pertaining to services support.

Construction on the tropical huts and messhall has begun with MCB-3 contracting. As of the month's end, none of the new structures was completed although approximately 29% of the huts were finished except for doors, steps and wiring.

Battalion motor transport logged 30,435 miles, 1,833 of which were in support of Division assigned commitments.

There were thirty-two casualties med-evaced from the battalion. There were seventeen incidents of enemy inflicted damage requiring repair to battalion tanks. Six were as a result of mines, seven from anti-tank rounds and three by artillery. All were to M48A3's and all except 4 were returned to service. Three will be returned to service shortly. The remaining vehicle was a combat loss belonging to an SLF BLT OPCON to the Division.

NARRATIVE REPORT

Today Lieutenant Colonel F. D. CHAPMAN, Commanding Officer of 3d Tank Battalion was introduced to Mr. KHUE, the Village Chief of Loc Son and several members of the village government. A briefing was held on the current projects being undertaken in Loc Son. An inspection tour followed.

Six cubic meters of crushed stone donated by MCB-62 will be available sometime next week. Transportation for the stone will be provided by Shore Party Battalion.

NARRATIVE REPORT

Today two cubic meters of crushed rock were delivered to Loc Son to be used in the making of bricks. The stone will have to be crushed to a smaller size before it can be used. Sufficient sledge hammers are available for the task.

NARRATIVE REPORT

Today three cubic meters of crushed stone were delivered to Loc Son. Five villagers from Loc Son were utilized to help in the loading and unloading of the stone.

A five-ton truck was supplied to the Assistant Village Chief, Mr. Ham, to go to Hue and pick up refugee supplies for the hamlet of Ha Chau. The supplies were not available.

HM3 Beachum was replaced as resident MEDCAP corpsman by HM3 Emrick.

NARRATIVE REPORT

Major FORTENOT, Battalion Executive Officer, 3d Tank Battalion and Sergeant Major CUIPEPPER visited Loc Son today. A tour of the three projects under construction and a discussion of the projected dike project were conducted. Major FORTENOT and the Sergeant Major then talked with the Village Chief and the Assistant Village Chief about these projects.

On Wednesday 26 July, 3d Tank Battalion will supply two jeeps to bring a child and his mother to A Med where the child will be flown to Danang to have two birth defects corrected.
