COMMAND CHRONOLOGY

1-31 March 1966
Section XI

1. During the period 1 March to 31 March Company C consisted only of a Company Headquarters with a strength of 2 Officers, 48 Enlisted, 2 Navy. No operations were carried out other than maintenance of vehicles. On 28-29 March the Company Headquarters embarked aboard the USS Whetstone, LSD 27 at Chu Lai, Vietnam and disembarked on 30-31 March at Hue/Phu Bai, Vietnam. No particular problems were encountered; no significant lessons were learned.

MARCH 1966 SUMMARY

PERSONNEL AND ADMINISTRATION

The Battalion's personnel posture continues at an acceptable level in relation to the strength authorized by the M Series T/O. The Battalion's chargeable strength as of 31 Mardh 1966, was 54 Marine Officers and 928 Marine Enlisted together with 1 Naval Officer and 15 Naval Enlisted. These figures include A & B Company, 1st Tank Battalion, soon to be transferred back to 1stDiv control.

Most personnel shortages were alleviated during this reporting period. 38 Marine Officers and 133 Marine Enlisted were joined as replacements. These replacements solved most Officer shortages by numbers if not by MOS. Enlisted personnel of the 0100 field still remain critical. With rotation during April the Battalion will be short six 0141's. A legal clerk Sergeant 0121 is still sorely needed. Replacements in the 3531 MOS are also needed. With rotations during April the Battalion will be fifteen 3531's short. This is approximately one third of the authorized strength in this MOS.

Three breaches of discipline have occured during this period which have resulted in referal to Summary Court-Martial. These have been the only discipline problems requiring judicial punishment.

Morale remains outstanding. The Battalion Special Services Officer has provided basketball, softball and volleyball facilities, which are well utilized by the members of the Battalion. R&R continues to play a major part in the high state of morale. These trips are looked forward to with enthusiasm by all hands. The curtailment of liberty does not seem to have affected morale to any appreciable degree.

Reenlistments and extensions of overseas tours have continued to receive command emphasis. Three Reenlistments were effected and 19 requests for extensions of overseas tours were submitted during the month.

The adjustment of August and September RTD's has helped to partially break up the large number of personnel due to rotate during those months, however they still account for substantial losses of personnel in a relatively short period of time. Continued emphasis on extensions will help to alleviate this problem to a degree. Timely replacements will be needed during the third quarter of this year.

ENCLOSURE (2)

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

INTELLIGENCE

The Viet Cong, during March 1966, continued to employ large mines (50-75 lbs) to combat the proven effectiveness of tanks in the Da Nang enclave. As in previous months their efforts to destroy the M48A3 proved unsuccessful. However, in four instances tanks were damaged to varying degrees. The incidents in which tanks hit mines were as follows:

1. 11 March 1966 at 1130H a tank detonated a mine at coordinates (BT 067633), which resulted in moderate damage to the tank. The mine was rigged with a pressure-type detonating device. The mine probably contained between 40 and 50 pounds of TNT. It left a crater 4 feet in diameter and 3 feet deep.

2. 13 March 1966 at 0700H a tank detonated a mine at coordinates (BT 100620). The mine was rigged with a pressure detonating device which was destroyed by the explosion. The tank sustained only moderate damage from the blast which yielded a hole 5 feet in daimeter and 3 feet deep. This mine probably contained about 50 pounds of TNT.

3. On 28 March 1966 at 2045H a tank hit a mine at coordinates (AT 950 600). The mine consisted of 50 pounds of black powder and created a crater 8 feet in diameter and 4 feet deep. The tank sustained moderate damage to the suspension system.

4. On 29 March 1966 at 0950H a tank detonated a mine at coordinates (BT 087619). The mine consisted of approximately 40-50 pounds of TNT. A crater 8 feet in diameter and 5 feet deep resulted from the explosion. The tank sustained moderate damage.

The Viet Cong continue to place mines at points of channelization and in roads and tracks either frequently or recently used by tracked vehicles.

Although numerous reports have credited the Viet Cong with an increased anti-tank capability in the form of RPG-2 (B-40) rocket launchers, no tanks from the 3d Tank Battalion have encountered these weapons during the reporting period.

On 10 March 1966 at about 2100H a Viet Cong force of 6-10 men attacked the Phong Bac schoolhouse at (AT 998710). During the day of 10 March 1966 the 3d Tank Battalion had conducted a ceremony at the school celebrating the successful renovation/rebuilding of the school and village office. At 2100 the Hamlet Chief was holding a meeting of the Phong Bac people concerning hamlet defense and destruction of the VC infrastructure. The VC had 2-4 guerrillas in the crowd in the school yard who started the attack by throwing grenades into the crowd. These guerillas then withdrew under covering fire from 4-6 Viet Cong located to the north and west of the schoolhouse. It is believed that this attack was aimed at both the school and the pacification effort presently being effected in the hamlet.

CONFIDENTIAL

ENCLOSURE (2)

DECLASSIFIED

DECLASSIFIED

The people of Phong Bac Hamlet are still reticent to volunteer information concerning the Viet Cong infrastructure which exists in their hamlet. This is attributed to two causes: 1) For the most part, people loyal to the legally constituted GVN do not have much information concerning the Viet Cong activities; and 2) Those possessing knowledge are guerillas or sympathizers who are extremely difficult to identify and of course will divulge information only at such time as they are apprehended and interrogated. In one such case a 15 year old boy was apprehended following the attack on the school. Under interrogation by the Battalion and Hoa Vang District he gave the names of three other guerillas and the location of a carbine which was captured from a PF the night of the attack. Of the 3 people named 2 were apprehended the same day.

The village officials are fairly reliable sources of information but it almost always lacks timeliness. The village and hamlet officials are eager to volunteer information about something which has happened but seem to rarely get information about coming events.

On 31 March 66 the village chief did state that he had received information that the Viet Cong would be coming into the hamlet of Phong Bac to collect rice taxes, following the harvest.

Weekly, reports are received of Viet Cong activity in the hamlet. Propaganda leaflets, abduction of people, and occassional sniper rounds from the hamlet both bear witness to the fact that the Viet Cong are continuing to contest the pacification effort in this area.

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

TANK COMBAT OPERATIONS

The 3d Tank Battalion continued to provide tank combat support for the 3d Marine Division.

Company A, (-) (Rein), remained in support of 3d Marines. The tanks are employed on strong points on the MLR, road blocks on the MSR and Route #1, and provided the 3d Marines with a mobile reserve force. The tanks employed on the forward strong points are also used for long range H&I fires. As the dry weather continued to improve trafficability in the 3d Marines TAOR, Company A increased its patrol action.

Company B (Rein) remained in direct support of the 9th Marines and continued to have the majority of tank offensive action and enemy contact. Elements of the company participated in 11 armored patrols, 17 search and clear, and search and destroy operations, and operated twice as a mobile reserve. These actions resulted in 46 enemy contacts for a total of 15 VC KIA and one VCC.

Both Companies A and B employed flame tanks. They were utilized to clear fields of fire and destroy sources of cover and concealment. Some flame missions were fired at night as a show of force and to exploit the inherent psychological effect of flame.

Company C, (-) (Rein), remained in support of the 4th Marines and displaced to the Phu Bai enclave with the regiment. The Company Headquarters joined the 3d Platoon, Company A, which was attached to the 2d Battalion, 1st Marines in Phu Bai. This platoon was redesignated as the 1st Platoon, Company C. The old 3d Platoon, Company A, returned to Phu Bai with BLT 3/4 upon completion of their deployment as SLF. This platoon was redesignated the 3d Platoon, Company C. The 2d Platoon, Company C, displaced from Da Nang to Phu Bai to join the company.

The fire power of the tank continued to be emphasized. During March, tank units in the Da Nang TAOR fired the following 90mm missions:

NUMBER OF MISSIONS			SUPPORTING	
Observed	H&I	Total	MAF	RVN
64	146	210	115	95

ROUNDS EXPENDED

HE	WP	Cannister
1172	427	35

ENCLOSURE (4)

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

SPECIAL OPERATIONS

During the month of March, H&S Company conducted 13 security patrols and 2 ambushes in the vicinity of the 3d Tank Battalion Command Post. The battalion participated in providing night security for an engineer well drilling team south of the Cp on the Cau Do River.

The provisional infantry platoon maintained on standby was employed for a 7 day period in the 3/9 area of Marble Mountain to augment their defensive effort.

Initial action was taken in the organization of a combined action platoon to increase security of the Hoa Tho Village Headquarters and Phong Bac School. A squad (-) of H&S Company, 3d Tank Battalion, was committed to reinforce the undermanned Popular Force unit assigned that security mission.

Plans are being finalized to implement the formal organization of the combined action platoon in accordance with the provisions of Division Order 04900.1.

CONFIDENTIAL

TRAINING

Training continues on a small unit level and through practical application. Weapons training, tank gunnery, and indirect fire procedures received the greatest emphasis.

Specifically as to weapons training particular emphasis was placed on safe handling of hand held and tank-mounted machine guns in operations as well as training. Safe handling procedures were outlined and instruction held by subordinate unit commanders. Such instruction was directed on a continuing basis and an appropriate battalion directive on the subject was drafted to reemphasize safety procedures and supplement all instructions that have been promulgated on this subject.

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

LOGISTICS

1. General

A. The period covered by this report is from 1-31 March 1966.

B. During the month of March the over all effectiveness of Logistics Support for the command was very good. Existing problems are amplified below.

C. The Division Ordnance Office notified this command that there are thirty (30) M48A3 tanks being shipped from CONUS approximately 5 Apr 1966. These tanks are part of the FY66 R&E program. Seventeen (17) are marked for the 3d Tank Bn and thirteen (13) are marked for the 1st Tank Bn. It is planned that for FY67 each Tank Bn will receive thirty (30) M48A3, eight (8) M67 and four (4) M51 tanks through the R&E program.

D. The main Logistic efforts during this period were as follows:
(1) An aggressive attempt to procure critically required tank spare parts.
(2) Move "C" Company form Chu Lai and Da Nang to Phu Bai.
(3) Have all 90MM Gun Tubes bore scoped and a pull over gauge reading taken.
(4) Continue to develope the cantonment.

2. Supply

A. Procurement, Availability, and Distribution of Supply.
(1) The availability and distribution of Class I, IV and V is excellent.
(2) The availability and distribution of Class III Supply is good.
(3) The lead time and fill rate for Class II items of supply has improved greatly since July 1965. This was due mainly to Red Ball, Critapak, and the use of parcel post. The one area which needs improving however is the lead time for heavy and bulky tank spare parts which due to their weight and size can not utilize parcel post or the critapak program. All deadlined tanks which have been down for more than 15 days are deadlined for spare parts which fall into this heavy and bulky catagory. Major mine damage has been mostly to tank suspension parts and components. These parts are invariably heavy and bulky. At this time this Command has four (4) tanks deadlined which have suspension parts destroyed by enemy mines. Two of these deadlined tanks have been waiting for parts for more than 60 days. All parts were placed on priority 02 requisitions and all tracer action has been pursued.
(4) The availability and distribution of medical supplies has been excellent. There exists a shortage of syringes; however, our stock will suffice until an expected rush shipment arrives in country.
(5) The percent of FY66 Documents completed as of 31 Mar 1966 is as follows. Documents with 30 days or less are not considered.

	Pri 02	Pri 05	Pri 12	Pri 17
Documents	294	1117	4143	490
Completed	189	551	1238	220
Fill Rate	64.2%	49.3%	29.8%	44.8%

ENCLOSURE (7)

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

B. Sup ly Administration

(1) Reconciliation of Company and Section Requisitions with the Battalion Sup ly records is now being accomplished. A priority of work effort has been placed on this project.

C. Evacuation and Hospitalization

	Air	Surf	Aw Evac	Ret To Duty
KIA	0	1	0	0
WIA	0	0	0	0
Non-Bat	0	6	0	4
Non-Bat Deaths	0	2	0	0

4. Transportation

A. The overall effectiveness of the Battalion Motor Transport Platoon continues to be excellent.

B. The monthly motor transport mileage for the Battalion since being in country is as follows. These figures do not include the gun companies.

1965		1966	
July	7,905	Jan	20,650
Aug	18,638	Feb	18,317
Sept	20,243	Mar	26,272
Oct	23,214		
Nov	20,408		
Dec	18,431		

C. The resupply of the tank Platoon on Hill 55 is now accomplished with motor transport rather than Helicopters since the Engineer Bn put in a road to Hill 55. Helicopters proved to be very unreliable. This problem was discussed in the February report.

D. Another 60 ton ferry with cable has been installed across the Song Bau XAu AT 990641 near the Ha Dong Bridge. This will enable tank operation and subsequent logistic Support South east of Hill 55 and south of Ha Dong.

5. Service

A. Tank Maintenance

(1) The non-availability of major tank components and spare parts still holds up the maintenance effort.

(2) Crew preventive maintenance and frequent maintenance checks by organizational maintenance personnel have resulted in continued tank support in spite of the lack of heavy and bulky spare parts.

(3) Tank B-11 201889 was submerged on 30 March and will be evacuated.

(4) Two Tanks, B-13 201961 and B-31 201881 Hit mines on 29 March. Both tanks sustained major damage to their left suspension.

ENCLOSURE (7)

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

(5) During this period all 90MM Gun Tubes have been bore scoped and had a pullover gauge reading taken. Generally the tubes have moderate wear however some have fired over 1000 rds and the readings indicate little life remaining. These tubes will be watched closely. Replacement tubes are available.

B. Cantonment

(1) The 7th Engineer Battalion is now putting up a permanent wiring system. This will elevate much of the power shortages now realized due to the temporary type wiring now employed.

(2) Arrangements have been made with the Division Engineer's Office to obtain the temporary loan of a 30KW Generator while our generator is in for repair. The cantonment actually requires at least a 60KW generator. This is programed and the cantonment will get one when sufficient ammounts arrive in country for distribution.

(3) The four commands within the main cantonment are exploring the feasability of establishing a water point in the area. Pumping water from the river to a centralize point on the hill could be done. This would save many man hours and depreciation to vehicles.

C. Sanitation. Frequent inspection by the Medical Authorities and close command attention to preventive medicine and area police has resulted in no sanitation problem.

D. Food Services.

(1) The availability of Class I supplies and the supervised preparation of meals has continued to be one of the prime reason for the high state of morale which exists in the organization.

(2) The installation of a 630 cu. ft. walk in refrigerator has greatly improved the overall effectiveness of the Battalion Mess.

DECLASSIFIED

DECLASSIFIED

COMMAND AND CONTROL

At the close of this reporting period command and control requirements were reduced by detachment of Companies A and B, 1st Tank Battalion. 3d Tank Battalion no longer exercises any control over those two companies.

Companies A and B, 3d Tank Battalion, continued in direct support of the 3d and 9th infantry regiments in the Da Nang Enclave. Company C, attached to 4th Marines, displaced from the Chu Lai Enclave to Hue-Phu Bai with that regiment.

Operational control of the majority of available tanks continued to be exercised by supported infantry units.

3d Tank Battalion retained control of the Headquarters Tank Section and the 3d Platoon of Company A (formerly the 1st Platoon of Company C). This platoon, presently supporting the 3d Battalion, 3d Marines, is retained under Tank Battalion control to provide flexibility in filling requests for tank support.

With the battalion reduced to three gun companies, control has become more centralized. Supervision and direction of the detached company employed in the Hue-Phu Bai Enclave are exercised through daily communication, periodic reports, and frequent staff visits.

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

COMMUNICATIONS - ELECTRONICS

Reliable communications were maintained during the month of March to support tactical requirements.

Two long locals were installed from this command's switchboard to the Phong Bac School and the engineer's test well drilling site for defense coordination.

The Battalion Electronics Maintenance Shop remains without adequate power source to operate electronic testing equipment necessary to perform second echelon maintenance. Presently, a PP 143c DC power converter operating from a 24 volt vehicular power source is being used to provide a temporary source of AC voltage to operate electronic testing equipment.

Due to frequency shortages of FM tactical frequencies used within the 3d Marine Division, all units have been requested by the Division CEO to relinquish control of all secondary FM frequencies.

Twenty TA-1 sound power phones were received during March on a special allowance to the T/E. These phones are being installed on the perimeter bunker gun-loop to provide the command bunker with communications to control subordinate bunkers.

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

MEDICAL AND DENTAL

Battalion sick call for the month of March consisted of 443 outpatients and four inpatients. The majority of the outpatients were treated for upper respiratory infections and skin conditions. There were twelve cases of venereal disease treated. Nine of these were gonorrhea and three non-specific urethritis.

One of the inpatients was admitted for a burn on his right leg in Febuary and was remaining on the ward on the first day of March. Two of the inpatients had upper respiratory infections and the other had a fungus infection on his feet. The man with the fungus infection was from Anti-Tank Battalion.

There were fifteen cases of probable Staphylococcal Food Poisoning in the Battalion on 29 March. They were treated and released to duty. The exact cause could not be determined. Renewed emphasis is being placed on sanitation of personnel and equipment, and proper preservation of food.

One admission referral was made to "C" Med. The patient had acute appendicitis.

There were four hours of lectures given to 120 Marines of this Battalion by Battalion Hospital Corpsmen. These lectures were on V.D., First Aid and Sanitation.

The Battalion Aid Station now has a sink installed with running water. It is planned to construct a tent close to the B.A.S. to use as a ward for patients that should be hospitalized here.

The Civil Action Medical Team from this Battalion treated patients three times a week at the village aid station, built by the Tank Battalion at the Phong Boc School. A total of 678 treatments were administered to 421 patients. Most of the treatments were for skin conditions.

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

CONFIDENTIAL

CIVIL AFFAIRS

The 3d Tank Battalion continued its vigorous Civic Action Program during March 1966. Tangible accomplishments the 3d Tank Battalion completed in Phong Bac Hamlet, Hoa Tho Village, Hoa Vang District during March are as follows:

1. Each day approximately 200 pounds of garbage was distributed to the 19 families located in Lien Gia's 17, 18, 19, and 25, making a total of 3 tons of pig food for the month.

2. On 2 March 1966 the repairs to the second room of the Phong Bac school were completed and the concrete deck laid. (The first room was finished on 28 February 1966 and was included in February 1966 Command Chronology).

3. On 3 March 1966 the bullet holes in the roof of the entire school were filled and the concrete porch deck was laid.

4. On 4 March 1966 the inside walls of the two classrooms were painted in "Conch Shell" pink which made the room much brighter and cleaner. The next day a 1:250,000 map of Viet Nam was placed on the rear wall of one classroom. This map covers half the rear wall of each room.

5. On 5 March 1966 the battalion evacuated a woman to the USOM Hospital in Da Nang. She had sustained a broken arm when struck by a lug wrench thrown from a Marine truck (not from this command) on National Highway #1.

6. On 6 March 1966 the second classroom received its 1:250,000 map of Viet Nam. These two maps which were placed in the classrooms provided some 60% of the pupils with their first look at a "Picture" of their whole country. Their appreciation of the maps was evident on all the children's faces.

7. The shutters, window sashes, and doors were painted on 8 March 1966 in Marine Corps green. This is the first work that the Marines had actually done on their own. Previously, this was a timely joint venture, with the Tank Bn. providing the material, ideas and some labor but with the villagers providing most of the labor.

8. On 10 March 1966 the cement deck was laid in the village office and the outside of the school was painted; another joint project. In addition a portion of the roof over the porch of the school which had previously been thatched was repaired using sheet tin. With paint left over from the school project the Vietnamese painted the aid station which the Tank Battalion built in January in the school yard.

9. On 11 March 1966 the 3d Tank Battalion sponsored a celebration

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

at the school to officially open it for classes. The Division Band played a concert as the ceremonies opened. Then the 3d Tank Battalion Commanding Officer presented two Vietnamese flags and standards to the Dai-uy Nguyen Hoa, District Chief of Hoa Vang District. The District Chief in turn presented the flags, one for each classroom, to the respective teachers. The Dai-uy Hoa then gave a speech to the children in each classroom. With gestures toward the large map of their country he gave a short speech emphasizing the importance of education to the future of Viet Nam. He was followed by the Hoa Vang District, Province Representative who gave a similar talk to each room full of pupils. After the ceremony the 3d Tank Battalion Commanding Officer and the official party returned to the 3d Tank Battalion Cp for lunch. The guests for the party were: The C. O. 9th Marines, The Hoa Vang District Chief, The Hoa Vang District, Province representative, and the Hoa Tho Village and Phong Bac Hamlet Officials.

10. On the night of 11 March 1966 the Viet Cong attacked a psy-ops lecturer and residents of Phong Bac who were holding a meeting in the school yard. As a result of the attack the front wall of the school was battered by grenade fragments and rifle and machine gun slugs. The porch was cratered by grenades.

11. On 12 March 1966 the repairs on the school began again., The Vietnamese went back to work eagerly and with a fireteam of Marines helping, repairs were completed on Monday, the 13th of March.

12. In addition to completing the school repairs on 13 March 1966 locks, keys, and chains were presented to the teachers to enable them to safeguard the various school supplies kept in the classrooms.

13. On 16 March 1966 the battalion presented each of the teachers with a world globe for the classrooms. Many children were amazed to find that the world is round. They received the globe joyfully. Major General KYLE visited the school on this day and was introduced to the teachers and students of each class.

14. Lieutenant General KRULAK visited the Phong Bac school on 17 March 1966 and seemed to be favorably impressed with the repair/rebuilding. Unfortunately, school was out when the General visited.

15. On 18 March 1966 the battalion distributed 1400 pounds of toys to the children of Phong Bac. Unfortunately, the toys were sold within a few hours to black market people for resale in Da Nang. It is not recommended that toys be distributed to villagers living in close proximity to large urban areas. Toys are a highly prized commodity and bring a profit of at least 400% to the vender, who often pays no more than VN 50$ to a child and sells the toy at VN 200$ and up.

16. On 27 March 1966 the Battalion Civic Action Team spent the entire day at the Hoa Tho Village office. One of the teachers was not able to

DECLASSIFIED

DECLASSIFIED

teach because of the General Strike in Da Nang. So the battalion's interpreter, SSgt LAC, taught school for 3 hours in the afternoon. Four carpenter kits were distributed - 2 to the village for use on official village construction projects, and 2 to two known carpenters who devoted much labor to the school renovation without pay. 2,560 meters of barbed wire were given to the Phong Bac Hamlet Chief to continue work on defense of the hamlet. Initial planning began on the new "Village Market" place.

The program effected by the 3d Tank Battalion has yielded several very real but intangible benefits. The school project generated more good will for the 3d Tank Battalion than all the candy, clothes, and food which has been passed out in 10 months. The battalion's quick reaction to the attack on the school which included immediate repairs on the school and visiting of injured persons exhibited to the people as nothing else could the determined resolve of the U. S. Marine Corps to aid the people of Viet Nam to rid themselves of the Viet Cong and build themselves into a strong nation.

The overall emphasis of the Civic Action Program is constantly reevaluated and revised in accordance with successful achievement of specific objectives. This allows the program to mature in consonance with the social-economical-political progress made by the people. At the present time the 3d Tank Battalion is concentrating on improving hamlet and village administration and functioning. This is rightfully and necessarily being done within the framework of the established Vietnamese governmental system.

The 3d Tank Battalion is presently suffering the adverse effects of non-payment of bills and claims. The excessive length of time it takes for just payments to be made creates ill fellings and hampers the Battalions efforts to combine Civic Action with intelligence collection. It is felt that more rapid payment of claims would greatly enhance the successful pacification of this Battalions TAOR.

The 3d Tank Battalion MEDCAP Program was active 3 days a week at the village aid station. The MEDCAP team administered 678 treatments to 421 people during March.

The battalion aid station also received a number of emergency cases brought to the battalion perimeter during the month. It is always emphasized to the villagers that the battalion is open 24 hours a day for emergency medical attention.
